Scientific seal of approval for the implant planning and implementation of the GALILEOS system

Scientists at Cologne University subjected Sirona’s GALILEOS 3D X-ray system to intensive testing over a period of two years. These experts were convinced by the system’s accuracy, as well as its intuitive user interface.

Sirona is the only manufacturer worldwide which offers an integrated concept consisting of 3D imaging as well as computer-aided implant planning and implementation. In combination the GALAXIS 3D X-ray software the GALILEOS System requires only one scan in order to visualise the entire cranial volume.

With the help of integrated software application “GALILEOS Implant" the practitioner can plan the implants on the same user interface. This planning data, together with a plaster impression and bite registration, is then sent to the Sirona subsidiary in Castellini. In a matter of days the practitioner receives the custom-made surgical template.

Videoacam Practical and Precise

The remarkable Videocam from Castellini perfectly illuminates the operating area with LED flash technology and has the ideal capacity for clinical observation.

Easily facilitated by the wealth of software available in the Videocam System, images captured can be used for a variety of applications and can help patients better understand diagnosis and treatment options.

The Soft-Touch command allows crisp images to be captured using a dental foot control, without the use of a flash. These images boast outstanding clarity and sharpness and can be simply transferred to a PC via USB 2.0.

Interproximal exams are simplified by the Videocam’s miniaturised head and Macro function. This outstanding feature allows the Videocam to translate even the smallest details and create high-resolution, natural coloured images that are accurate and precise.

Castellini pride itself on producing the highest quality technology so you can provide your patients with the highest quality care.

For further information about the comprehensive range of Castellini products call 0870 756 0219 or visit www.castellini.com

The OPMI Pico: the best microscope at the best price

Developed by world-renowned experts at Zeiss exclusively for dental use, the OPMI Pico is an excellent addition to any practice. Truly versatile, this established microscope benefits a wide range of specialist and general dental procedures, and is available from Nuview at an affordable price.

The OPMI Pico lets you examine the very finest details and the integrated light source means that you can see hard-to-reach regions in conditions approaching daylight.

Form follows function and all settings are easily changed without interrupting procedures. With the addition of the MORA Interface (Mechanical Optical Rotating Assembly), the OPMI Pico becomes even more mobile, and features include quick switching between site overview and detailed view, with one-hand repositioning.

The OPMI Pico is supported by a friendly and prompt after-care service from Nuview, to ensure that you get the most from this high quality technology.

For more information please call Nuview on 01445 759639, email info@nuview-ltd.com or visit www.voroscopes.co.uk

We’ve refocused our vision...

As the UK’s No.1 supplier of loupes and lights, our vision is to supply the very best precision products, combining exceptional quality with outstanding design.

Our new loupes and lights are expertly custom-made by leading supplier ExaVi-sion™. Founded by Jorn Renvig and optometrist Kim Jensen, ExaVision™ offer a welcome commitment to delivering superior design and quality craftsmanship, which perfectly complements our 16 years of unrivalled loupe experience and outstanding customer service.

Available in 2 styles, 5 frame colours and 3 frame sizes, each ExaVision™ loupe is individually crafted to your personal measurements at a purpose built factory on the small, tranquil island of Samso in Denmark. ExaVision™ produce loupes and lights to the highest standards, providing a quality product that Evident are proud to endorse.

Our vision has always been to exceed our customers’ expectations and we are confident our exceptional service combined with the superb quality of ExaVision™ loupes and lights will refocus your vision too!

Clark Dental

Schick Technologies is well-renowned for its range of high quality digital imaging equipment, and dental practices throughout the UK are benefiting from its outstanding portfolio.

Dr Shan Perera of Connaught House Dental Practice, in Rayleigh, Essex, brought Schick Technologies into his practice. “Schick Technologies has a long reputation of robust equipment and is seen as the cutting edge,” he says. “Also, it was the only company that could convert our OPG to iPan.” This has enabled the...
Don't let the Budget hold you back

The recent release of the 2009 Budget means the uncertainties of the country’s finances are being held firmly under the microscope. The contraction of the economy has caused many businesses to fold, and with more uncertain times to come, dental professionals need to have the best expert guidance available to them.

The ASPD is dedicated to providing the most up to date information and guidance to the dental professional in need of assistance. Relevant to the recent budget release ASPD members can provide help with pensions, insurance, accountancy, sales and valuing and much more. Success in the current climate and in light of the most recent budget is possible; gaining the best information is the key.

ASPD's website is constructed to provide a forum for dental professionals looking for a comprehensive guide on what to contact for information. There are up to date articles, and a list of member's contact details for reference.

For more information on the ASPD please call 0800 4586773 or visit www.aspd.co.uk

Grando Seal – Now in new NDT™ syringes

Hygienic and efficient use through non-dripping technology

Starting now, syringes that run, drip and leave strings and the accompanying waste of expensive material belonging to the past. Grando Seal, the proven fissure sealant, is now available in the specially designed NDT® syringe. VOCO has successfully developed a non-run-ning, non-dripping syringe based on the innovative non-dripping technology (NDT®) specifically for highly flowable materials. The easiest way to use a syringe is to twist it gently. It ensures that the material is dispensed smoothly out of the syringe and that the introduced air is removed. The 1:1 syringe to bucket ratio guarantees a sterile work environment.

Fissure sealant with excellent material and handling properties

Grando Seal is a light-curing, fissure sealant with a nano-hybrid composite base. It can be used to seal fissures in children and adolescents that are either at risk for caries or caries-free. It can also be used in adult patients that are diagnosed with an increased risk of caries. Patients with a high risk of caries due to limited oral hygiene as well as patients with a limited ability to comply with treatment can additionally be treated with Grando Seal.

Manufacturer:VOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.vooco.com

Velopex Zephyr 150 Surgery Air Supply

We are delighted to introduce the Velopex Zephyr 150 Surgery Air Supply. This is the first Compressor designed specifically to be situated within the Dental Surgery – rather than outside in a shed! The neat clean lines and white powder coat finish make this powerful compressor an easy addition to a Dental Surgery, either mounted on a Velopex trolley or sited within cabinetry. The low noise signature of this oil free twin-head design, make it suitable for all occasions. When mounted on the Velopex Trolley (which can also house the Velopex Aquacut Quattro as well as the Velopex Colour Diode Laser) the Velopex Zephyr can provide all of the compressed air requirement of the surgery.

The Velopex Zephyr 150 Surgery Air Supply is available (until end of July 09) with the Velopex Aquacut Quattro and trolley for £2,999.00 + VAT, saving of over £1,240 (+ VAT) from list price.

Win-win dental plan solutions

A solution that offers the best of both worlds’ may at first appear to be too good to be true. However, with Munroe Sutton’s highly successful Patient Referral Plan, there is no catch. This innovative system has arrived from the US where Munroe Sutton has been helping dentists grow their profitability for 50 years. Indeed, over 69,000 dentists and 7 million US patients have chosen the Munroe Sutton dental plan.

It is an elegantly simple solution to boosting patient bases and increasing profitability, while offering great prices to patients. The uptake of a wide variety of attractive dental plan packages by individuals and employer groups of every size results in a pooling of potential patients, while dental practices join the Dental Network for access to this valuable resource.

Munroe Sutton offers effective marketing at no cost to the practitioner via an array of direct, innovative strategies with proven benefits for both practitioners and patients.

For more information please call 020 7887 6884. Or visit www.munroesutton.co.uk/dentist

Ultimate Digital Imaging Technology from The Dental Directory

Witness the new E-WOO PaX-Rev 3D – setting a new benchmark as the World’s most advanced dental Cone Beam CT and here’s why:

It is the only dental CBCT to offer image ‘Freeview’ FOV. This allows the operator to customise precisely the FOV required.

The Panoramic Area Type Sensor is available either as a 2 in 1 system (Pan and CBCT) or 5 in 1 (Pan, one shot Ceph and CBCT).

The X-Ray generator reduces radiation dose by up to 60% compared to a continuous dose.

The 3D software provides crisp 3D construction, enhancing diagnosis.

Compatible with surgical guidance software such as Simplant and Procera, the PaX-Rev 3D also comes with CD publishing for referral business and a Direct DICOM printer module.

For further information on the PaX-Rev 3D or other E-WOO products within the range, please contact The Dental Directory FREE on 0800 585 585 or visit www.dental-directory.co.uk

Schick Technologies also supplied the practice with the state-of-the-art CDR Sensor. “The main benefit for us is the instant imaging and the enhancing of the image,” he says. “We use it mostly for conventional x-ray and for zoom-in.”

Industry News
Dentomycin: The Adjunctive Treatment That Reduces Key Pathogens In Periodontitis

Dentomycin provides clinicians with an effective anti-microbial and anti-inflammatory adjunctive, effective at any point during the treatment of chronic adult periodontitis including the earliest stage. Combined with scaling and root planing, Dentomycin can reduce pocket depths by up to 42% in just 12 weeks.

Dentomycin is proven to attack the bacteria prevalent in periodontal disease. After 3 or 4 applications (with 14 days between each one), this cost-effective product significantly reduces the key pathogens and is also effective in areas that are hard to reach using instruments, with the flexible, pre-filled applicator allowing you to access and apply the gel directly to the pocket base.

Easy to use and cost-effective, Dentomycin is simply an essential product.

How to Talk Money with Confidence

Software of Excellence’s ‘Thrive in 2008’ seminar series continues into June, as the world leaders in practice management and marketing solutions, team up with “thought leader” Ashley Laster, to help you learn more about getting the most from your Practice Management system; inform, market and sell to your patients.

As one of the dental industry’s finest motivational speakers, Ashley is the ideal person to guide you through some proven techniques so that you can feel confident and comfortable when talking money and achieving the right prices for your services.

The seminars, which include a complimentary buffet, will be worth 4 hours of verified CPD and will run from 6-10pm at the following venues throughout June: Places cost £69 (incl. VAT) per person or £119 (incl. VAT) for two people.

• 08 June Glasgow
• 10 June Belfast
• 15 June Manchester
• 16 June Bristol
• 22 June Dublin
• 24 June London

Places are limited so to avoid disappointment reserve your place today by calling 0845 545 5767.

NobelActive™

The innovative dental implant NobelActive™ has been especially designed for high initial stability in soft bone and extraction sockets. NobelActive™ was launched after the successful completion of pre-launch activity involving experienced users worldwide over an eight-month period.

Dental professionals have found several benefits in working with NobelActive™ including:

• High initial stability, even in compromised bone situations
• Bone condensing property
• Adjustable implant orientation for optimal final placement
• Built-in Platform Shifting
• Dual-function prosthetic connection
• TiUnite® & Groovy compatible.

More than 150,000 NobelActive™ implants were sold in 2008. This unprecedented response signifies that NobelActive™ surpasses the requirements and demands of experienced surgical and restorative clinicians around the world.

The innovative NobelActive™ implant system delivers exceptional initial stability and because of its built-in platform shifting functionality, adjustable implant orientation capability and dual-function prosthetic connection, NobelActive™ offers patients a beautiful, natural-looking aesthetic every time.

Supporting Dental Excellence!

KaVo would like to congratulate the Casterbridge Dental Studio in Dartmouth in winning the award for Dental Laboratory of The Year at the 2009 Dental awards.

The Casterbridge Dental Studio fought off fierce competition from several outstanding UK Laboratories to be bestowed this prestigious award. The team demonstrated to the judging panel a superior commitment to quality and standards, outstanding team ethos and training and an edge that sets them apart from other laboratories.

Casterbridge is the second UK laboratory with KaVo’s Everest CAD/CAM technology to win this award in recent years. The innovative Everest offers professionals an intelligent software module for excellent workflow with features including:

• Scanning precision 1.1 - Original to digital
• Comfortable project administration
• Software-supported modelling and construction
• Fully-automated CNG manufacturing
• Therm – reliably to a perfect finish

Further information about KaVo’s range of products please call 01494 755 000, email: sales@ka vo.com or visit www.ka vo.com.

UK manufacturers offer excellent value

In the present climate, Kemdent have decided to offer their customers even greater discounts on a range of products. Buying materials from European suppliers is very expensive, so this is an excellent time to approach UK manufacturers like Kemdent for the range of surgery materials you require.

Kemdent products are valued around the world. Kemdent prides itself on the manufacture of quality innovative materials.

Please contact Helen or Jackie at Kemdent to ask about the range of Kemdent special offers that are available. Special offers are available on Diamond Rapid Set GIC capsules and Diamond Carve and 90 GIC plus the Kemdent range of Cross Infection Control products, InstrumentSafe, PracticeSafe Spray and Wipes and ChairSafe alcohol free foam.

A typical offer: Save £57.90 and receive 3 free ChairSafe when you buy 2 value packs of Diamond capsules for £144.00 plus VAT.

For further information on special offers or to place orders call Helen or Jackie on 01795 770990 or visit our website www.kemdent.co.uk.

Ionoseal – Now in new NDT™ syringe

Hygienic and efficient use through non-dripping technology

Starting now, syringes that run, drip and leave strings and the accompanying waste of expensive material belong to the past. Ionoseal, the proven lining material, is now available in the specially designed NDT™ syringe. VOCO has successfully developed a non-running, non-dripping syringe based on the innovative non-dripping technology (NDT™) especially for highly flowable materials.

Lining materials with optimum material and handling properties

Ionoseal is a light-curing, ready-for-use, glass ionomer composite cement and it can be used under all restoratives, for extended fissure sealing and treating small lesions. Due to its proven attributes, Ionoseal is also a convincing materia in the NDT™ syringe. As a one- component material, Ionoseal is immediately ready to use and can be quickly as well as hygienically applied. VOCO has lowered the viscosity through an additional improvement in the formula. The material can thus be placed in the prepared cavity even better and poorly accessible areas can be wetted more easily.

Manufacturer: VOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.voco.com

For more information please contact Tim McCarthy Uk sales manager on: 01628 606 615, tim.mccarthy@voco.com

Natural excellence with Eco Dental

Oraldent is pleased to present its Eco Dental range, aclinically proven range of natural products with a high efficacy rate.

Benefits of employing Eco Dental include:

• Naturally sourced active ingredients such as Beech Creosote, Soapwort and Pine – natural antiseptics, analgesics, disinfectants
• Proven clinical results – high levels of patient and dental satisfaction
• Kind to instruments and patients – designed for maximum comfort
• Environmentally friendly – many products are water soluble with no harsh chemicals

The ingredients sourced by Oraldent for use in Eco Dental products have always been traditionally used within the dental field, but have been given a modern twist to provide the optimum treatment results. Dentists can depend on the natural antiseptic and analgesic qualities of ingredients such as piums sylvestris (pine) and beechnuts without resorting to synthesised treatments that may elicit allergic reactions.

For free samples please email claire@oraldent.co.uk. For more information please call 01480 862000, email enquiries@oraldent.co.uk or visit www.oraldent.co.uk.
