Care in the community
Pass on your skills to local healthcare personnel in Tanzania with Bridge2Aid

The Bridge2Aid Dental Volunteer Programme (DVP) was developed to allow qualified dental professionals to pass on their skills to local health care personnel in Tanzania. Each 15-day trip has spaces for up to 12 dentists and eight nurses (or hygienists/nurses) who are willing to work in remote rural clinics developing the skills of clinical officers and delivering basic dental services to the community. Places get filled up fast but there are some spaces left, although a minimum of one full years’ post-graduate experience for dentist applicants is required. To apply for your place, read onto the bottom of this page!

History of the B2A DVP
The Bridge2Aid Dental Volunteer Programme was developed in partnership with Dentaid during 2004, and we are very grateful for their support in helping to establish the visits. Since then we have run the programme ourselves.

Who will oversee my trip?
Administration of these events is carried out by Ruth Bowyer, our visits administrator in the UK. If you have any questions not answered in the FAQ section of the website, or to find out more about specific areas of the programme, call Ruth on 07748 643006.

Book your place
Places are now being booked on the January and February 2011 trips. You will need to download an application form from the Bridge2Aid website. Visit www.bridge2aid.org/cms/general/dvp and scroll down the page and click on the button ‘download your application pack’.

Access your practice data on your iPhone or Blackberry
Another breakthrough from PracticeWorks
Being able to access your practice management system from your smart phone is just one of the new software innovations we’re rolling out this year. Book your demonstration now and see just how advanced R4 is.
