Bridge2Aid (B2A) is a dental and community development charity working in the Mwanza region of North West Tanzania. We started full scale operations in 2004 and work closely with the Tanzanian Government to deliver aspects of their dental strategy. We operate a not-for-profit dental clinic in the city of Mwanza (Hope Dental Centre) and have a community development programme for the disabled community based at Bukuambi Care Centre.

The four key aspects of Bridge2Aid’s vision are:
- To provide primary dental care and oral health education to communities in Tanzania
- To equip and further train local health personnel to provide emergency dentistry to rural communities
- To care for and empower the poor and marginalised in Tanzanian society
- To provide opportunities for UK dental professionals and others to use their skills to serve Tanzania, as locums or participants on the Dental Volunteer Programme (DVP)
