- EACH 500ml BOTTLE WILL PRODUCE 10 LITRES** OF DEIONISED WATER

Now available in a handy 3 BOTTLE PACK at Only £13.95* (Pack produces 50 litres**) - Safe-Water is now available through Henry Schein on: 08700102045

Infection control solutions to meet your unique requirements

With the Little Sister range of instrument washer disinfectors and autoclaves, Eschmann can lend a hand. Its washer disinfectors are available as benchtop and underbench models, with hand piece irrigation available for both models. This feature helps deliver a higher standard of cleaning and disinfection when complex, luminated instruments, i.e. dental handpieces are being processed.

The Little Sister autoclaves boast self-checking cycles - independent cycle control and monitoring systems compare actual performance with pre-set specified parameters. Any discrepancy interrupts the cycle, promoting a reliable and validated sterilisation process. Other features include one touch operation to promote efficient usage.

With payment options including one-off payments, 10 months interest free credit and Lease Plan Finance to spread the cost over a fixed term, Eschmann’s service really does suit everyone. The team’s expert engineers can provide a comprehensive site preparation service, and will carry out installation, training and maintenance.

For more information call 01903 857587 or email ic.sales@eschmann.co.uk www.eschmann.co.uk**

IADR Prize

Dr. Wyman Chan, a leading teeth-whitening expert and dentist dedicated to teeth-whitening, received the Procter and Gamble Investigator First Prize Award from Professor Domenica Boyle, Director of the Centre for Materials Research (IADR) meeting in July 2008.

Teeth can become neglected when you are working towards a career-changing goal such as the Olympics; that is why DENTSPLY joined forces with the British Olympic Association to provide quality oral care for British athletes. Don Gibson became aware of the scheme through a friend and a few years ago, he contacted DENTSPLY and became one of their registered dentists.

Andrew Simpson bought the gold medal back for Britain after sailing in the Star Class team. Andrew had not visited the dentist for three years and as an Olympic athlete, the Association made him aware of the scheme with DENTSPLY. The Princes Street Dental Practice, in Yeovil, Somerset was Andrew’s local practice, so he visited Don who treated him for routine treatment.

Don is thrilled to be a part of the scheme and will be ready to treat more athletes at the 2012 Olympics in London.

Looking to increase your knowledge in implant dentistry?

Look no further – Astra Tech Dental are offering a variety of courses for all general dental practitioners who are working with or looking to work with implants. The courses range from one day courses to year long modular courses depending on what you are looking for.

An excellent course aimed at clinicians wishing to become involved with implant dentistry or have an interest in sitting the diploma in Implant Dentistry is available...
student award

As a new generation of clinicians enter the world of dentistry, one name to keep an eye out for is Jamie Fellows.

Jamie has recently completed his first year at the new Peninsula Dental School in the South West of England, and he has already demonstrated an outstanding level of dedication and clinical knowledge within this exciting discipline. So much so, that he’s managed to beat all first year students to win the ‘Effective Practice’ award. Specifically developed to help recognise emerging talent in this area, this award not only gives Jamie a title to be proud of but also a valuable prize of £250, a reward that was kindly provided by Henry Schein Minerva.

Egan Dental Laboratories celebrate 25 years of excellence with Ivoclar Vivadent

After 25 years in the dental prosthesis field, Egan Dental Laboratories in South West England and Christopher Egan of Egan Dental Laboratories have seen many changes: new products, new technologies and new procedures. One of the few things to have remained constant is their use of The Biofunctional Prosthetic System (BPS) by Ivoclar Vivadent.

In celebration of this milestone, Egan Dental Laboratories invited a small number of their clients to visit the Ivoclar Vivadent head office in Liechtenstein. Here they enjoyed a tour of the company headquar ters, met with Ivoclar Vivadent product managers and rounded off the trip with a gala dinner.

When asked why they had remained so loyal to Ivoclar Vivadent, Richard Egan commented, “We have worked with something as personal and unique as a dental prosthetics, you need to be certain you’re using the highest quality materials with products and support services to match. Ivoclar Vivadent have always ticked all the boxes”.

limited spaces available!

Spaces are fast running out to see world renowned speaker Nicky Dufford will be with us at the St Mellion Hotel and Country Club on Friday 14th and Saturday 15th November. New ton will be illustrating how to deliver stunning aesthetic compos ite restorations.

His presentation will focus on introducing a philosophy of how to conservatively, effectively and artistically perform aesthetic di rect anterior composite restorat ions based on principles of emu lating proper form, colour and function.

The St Mellion Hotel and Country Club is a stunning venue and will host the English Open in 2009. Why not come for the lectures and take the opportunity to play a round on a championship golf course? Stay at the hotel or make a longer break of it and hire one of the holiday cottages on site.

The cost to see this world class speaker for non-members of the Cornwall IDP is just £585 for the 2 days or £170 for the first day only. But hurry – spaces are strictly limited and won’t last long at this excellent rate.

Please call Trish Hodgkinson on 01526 560745 or email phodgkinson@tinyworld.co.uk to book places today.

During the tour, Mare Northover, Ivoclar Vivadent’s UK Product Manager, took time to demonstrate the full range of benefits of the BPS system. This included a workshop to demon strate solutions to deal with the aesthetic and functional difficulties pre sented by patients with edentulism.

Christopher Egan commented, “It’s exactly this type of team based approach that puts Ivoclar Vivadent in a league of their own. Not only do they produce excep tional products, but they also keep a dialogue with people like us, the end user, keeping us informed. It’s truly beneficial for all concerned”.

He continues, “Egan Dental Laboratories, in Ripon, has a hard-earned reputation for quality, experience and reliability. We’re happy there are so very few Dental Laboratories in the UK who can match the wealth of clinical and technical knowledge we’ve developed over the years. We’re also proud to say we actually have a waiting list of dental surgeons wanting us to work for them. This shows we’re getting it right. But none of this would have been possible without the support of the Ivoclar Vi vadent team and the consis tently high quality of their products and materials”.

Ivoclar Vivadent are commit ted to providing innovative, long lasting dental solutions. They have a range of products and techniques designed to help denists provide their patients with an exceptional dental experience coupled with the highest quality customer service.

For further information about the BPS System, contact your local Ivoclar Vivadent Representative, visit www.ivoclarvivadent.com or telephone 0116 294 7888.

national polish society for implantology

welcome the EAO to Warsaw

The European Association of Osseointegration (EAO) held their 17th Annual Scientific Con gress at the Palace of Culture and Science in Warsaw, Poland on 18-20th September 2008. The event was dedicated to the Clinical Advances and Predictability with Oral Implants.

The meeting focused on all the aspects of the recent developments in osseointegration and researchers and clinicians received state-of-the-art information on different aspects of using these specific implants. BioHorizons had a stand at the event, which demonstrated all the latest technology and products available.

The Chairman of the meeting, Andrzej Wojciech and David Harris were pleased with the overall success as Dr Harris has been co-ordinating this scientific programme with the committee for several months.

The meeting was an excellent and unique opportunity to meet specialists from all over the world and exchange opinions and ideas. Attendees were given the chance to discuss their ideas and treatments in implant dentistry could lead to successful, long-term results.

Warsaw is an exceptional city with an impressive culture and history. The capital is full of fantastic architecture and historic buildings, a great location and venue for this stimulating and interesting programme.

For more information about BioHorizons’ products and courses please contact the office on 08700 620 556, email inoffice@biohorizons.com or visit our website at www.biohorizons.com.
