- DENTSPLY and the scheme, so he visited Don who helped him aware of the scheme with his interest in Implant Dentistry.

**NEW ERA - Biocompatible Chair**

Midmark's new operator stools are not only engineered to deliver premium styling and exceptional comfort, but they are also ergonomically designed to address musculoskeletal pain common in dentistry.

- The seating system offers a contoured seat with forward tilt to improve weight distribution, increase overall comfort and promote a more balanced posture. The waterfall front edge design reduces pressure on the back of thighs, also enhancing comfort. Multiple seat sizes and seat heights paired with unsurpassed adjustability, allow the dental team to better personalise their seating solution.

Since the introduction of the Midmark UltraComfort™ Chair in 2001, Midmark has built a reputation for designing high-performing, great-looking operator products, said Keith Boyle, Director of Sales & Marketing at Paterson, Midmark's UK distributor. “The new Midmark operator stool continues this tradition, offering not only premium styling and comfort, but also ergonomic refinement in an effort to reduce fatigue and pain that can have a negative impact on the quality of life of clinicians.”

The dentists’ stool offers a one lever adjustment for locking seat backrest tilt while providing a ratcheted backrest for an intuitive height adjustment without the use of knobs.

Optional armrests are available for the dentists’ stool to offer support for the elbows in the neutral shoulder position. Arm pad adjustments include height, swivel and slide, optimising positioning of the armrests to better accommodate personal needs.

The assistant's stool provides an optional ratcheted backrest, a ratchet release body support with height adjustment and an integrated footrest that automatically adjusts with the seat height.

New LED Operating Light

With its great modern styling and easy 5-axis manoeuvrability this will enhance any surgery. Through use of two, high intensity LED beams it produces a cool, clear light, which means no need for noisy fans, no heat generated onto patient and no bulbs to change. Comes with easy to re-move handles, which are sterilizable. Also features a light intensity switch, or optional sensor. Light is available in chair and ceiling mounted versions. Utilise the benefits of today's technology to benefit your working environment and patient comfort.

Water Pik, Inc. is a leading developer, manufacturer and marketer of innovative personal healthcare products sold under the Waterpik® brand name. The Company has developed and introduced many products that are considered first of their kind and have led to the formation of new care paradigms for the dental water jet, automatic toothbrush, and pulsating shower massage.

Student Award

As a new generation of clini-cians enter the world of dentistry, one name to keep an eye out for is Jamie Fellows.

Jamie has recently com-pleted his first year at the new Peninsula Dental School in the South West of England, and he has already demonstrated an outstanding level of dedication and clinical knowledge within this exciting discipline. So much so, that he’s managed to beat all first year students to win the ‘Effective Practice’ award. Specifically developed to help recognise emerging tal-ent in this area, this award not only gives Jamie a title to be proud of but also a valuable prize of £250, a reward that was kindly provided by Henry Schein Minerva.

To achieve this award, Jamie showed incredible aptitude on what was the first year course at the new first dental school to open in the UK in 40 years. The course integrates science, den-tistry and community-based treatments. It is a four-year course, open to those with a sci-ence degree or equivalent clini-cal qualification, and will oper-ate across centres in Plymouth, Truro and Exeter. When it is running at full capacity, the Peninsula Dental School will treat 512 NHS patients a day in aermune across the South West.

For more information on Henry Schein Minerva, please call 08700 10 20 45. For more infor-mation on the Peninsula Den-tal School, please log on at www.pms.ac.uk/den-tistry.

About Water Pik, Inc.

Limited Spaces Available!

Spaces are fast running out to see world renowned speaker Marc Northover with us at the St Mellion Hotel and Country Club on Friday 14th and Saturday 15th November. New-tion will be illustrating how to de-liver stunning aesthetic compos-itive restorations.

His presentation will focus on introducing a philosophy of how to conservative, effectively and artistically perform aesthetic di-rec t anti er composit e restora-tions based on principles of emu-lating proper form, colour and function.

The St Mellion Hotel and Country Club is a stunning venue and will host the English Open in 2009. Why not come for the lec-tures and take the opportunity to play in the championship golf course? Stay at the hotel or make a longer break of it and hire one of the holiday cottages on site.

The cost to see this world class speaker for non-members of the Cornwall IDP is just £585 for the 2 days or £310 for the first day only. But hurry – spaces are strictly limited and won't last long at this excellent rate.

During the tour, Marc Northover, Ivoclar Vivadent's UK Product Manager, took time to demonstrate the full range of benefits of the BPS system. This included a workshop to demon-strate solutions to deal with the prosthetic difficulties pre-sented by patients with eden-tulism.

Christopher Egan com-mented, “It’s exactly this type of team approach that puts Ivoclar Vivadent in a league of their own. Not only do they produce excep-tional products, but they also keep a dialogue with people like us, the end user, keeping us in-formed. It’s truly beneficial for all concerned”.

He continues, “Egan Dental Laboratories, in Ripon, has a hard-earned reputation for quality, experience and reliabil-ity. We believe there is a very few Dental Laboratories in the UK who can match the wealth of clinical and technical knowl-edge we’ve developed over the years. We’re also proud to say we actually have a waiting list of dental surgeons wanting us to work for them. This shows we’re getting it right. But none of this would have been possible with-out the support of the Ivoclar Vi-vadent team and the consist-ently high quality of their prod-ucts and materials”.

Ivoclar Vivadent are commit-tee to providing innovative, long-last ing dental solutions. They have a range of products and techniques designed to help den-

Waterpik.co.uk Launches New United Kingdom Website

The new Waterpik.co.uk is a valuable online resource for Water Pik customers, retailers and vendors. The site under-scores Water Pik’s focus on customer service, offering easy-to-use tools and resources in a user-friendly environment, in-cluding:

- Product guides
- Expanded product offerings
- Educational videos
- Customer Service information

Waterpik.co.uk presents the convenience of purchasing products directly from the Water Pik, Inc. Web Store or retail locator informa-tion for those who prefer to shop at traditional retail out-lets.

“We have invested a signifi-cant amount of energy and re-sources in bringing meaningful innovation to consumers in the UK in the areas of health and a wellness, and we feel that this new site reflects that effort,” said Richard Bisson, President and CEO, Water Pik. “The new waterpik.co.uk reflects our guiding principles of health, in-novation, and sustainability and provides a more robust cus-tomer service experience.”
