TENED is awarded the ‘iF Gold Award’ for the design of the TENED treatment center from Sirona, the center's innovative user interface has now been awarded the prestigious award for outstanding communication design.

Bensheim/Germany August 3, 2010. Another distinction for TENED. After the treatment unit has been awarded as the first dental product ever to be awarded an ‘iF Gold Award’ in 2009, it has now also been awarded the ‘iF communication design’ award.

EasyTouch is the treatment system’s control panel. The dentist can use EasyTouch to call up the entire range of TENED functions and to control patient communication on the unit directly. A wireless foot control can also be used to operate all functions hands-free without causing a break in the hygiene chain during treatment.

The award will be presented on September 3, 2010 at BMW Welt in Munich, Germany. TENED and the EasyTouch user interface was designed by the Dentsply-based Püsli Design Ltd.
