9th November – BDA, 64 Wimborne Road, Poole.

Shamin Shah, Brand Manager, GSK Consumer Healthcare, says “At GSK we acknowledge the pivotal role that hygienists and therapists can play in establishing children’s oral hygiene habits – habits that can last for a lifetime. It is for this reason that we have chosen to sponsor Chris Deery’s lecture on Paediatric dentistry as part of GSK’s ongoing commitment to post-graduate education”.

The GSK dental detailing team will be on hand to answer questions about the GSK product range, which includes Sensodyne, Sensodyne Pronamel, Poligrip and Corsodyl. The stand will feature a full range of support material for dental practices including educational leaflets, clinical papers and posters.

Great offer available on Kemdent InstrumentSafe.

InstrumentSafe is one product within the new, high quality range of Kemdent Cross Infection control products. It is available in a 1 litre dispensing unit and 5 litre and 10 litre refills. InstrumentSafe is a pre-sterilisation concentrate which is alcohol and phenol-free. It is an easy to dispense concentrate that is suitable for both thermals and thermo-stable instruments.

InstrumentSafe can be diluted to different concentrations depending on the time available. 40 ml of InstrumentSafe makes a 1 litre, 4% concentration soak. This concentration kills harmful bacteria including HIV/HBV/HEV/BVDV, vaccinia are Tuberculosis, and Hospitalism prophylaxis after 15 minutes of soaking. InstrumentSafe kills MRSA.

Kemdent customers require high quality, value for money products. Kemdent pride themselves on being a cross infection control products which have no overpowering odour, are safe and pleasant to use, are gentle on the user but above all powerful against harmful bacteria.

For further information on special offers or to place orders call Helen on 01795 770256 or visit our website www.kemdent.co.uk.

OptraStick is a plastic applicator which is flexible, but strong adhesive tip and an easily adjustable neck which facilitates easier access. Even if only slight pressure is applied, it enables dentists and their support staff to take easy hold of, carry and precisely place indirect restorations made of various materials, such as ceramic inlays, onlays and crowns, as well as IPS Empress or IPS e.max veneers. Using OptraStick will greatly facilitate the ease and efficiency of many clinical procedures including try-ins, application of etching gels and final cementation.
