 NSK firmly believe that maintaining an excellent oral health for patients is a key factor in helping develop a successful practice, and in response have developed the Ti-Max S950 multi-purpose airflossers.

 The Ti-Max S950 is ideal for use in a wide range of clinical applications. The Ti-Max S950 delivers a 3 level Power Ring that enables you to easily select the required power setting, successfully enhancing performance in periodontic, endodontic, scaling andamineral intervention procedures.

 Ergonomically designed, NSK’s Ti-Max S950 titanium body is lightweight and extremely durable, successfully reducing hand and wrist fatigue caused by prolonged, complex clinical procedures. Available in optic and non-optic versions, the circular light emission of the optical handpiece clearly illuminates the treatment area allowing for the possibility of faster treatment. What's more this versatile range offers direct connectivity to all major manufacturers’ couplings including KaVo®, Sirona®, W&H® and Bien-Air®.
