Braemar Financial

Braemar Financial, a direct lender to the Dental profession, has introduced a tax funding facility to ease the impact on practice cash flow.

- Tax Bill Deadline 51st January 2008
- Payment due for
- The balance of your tax owing from 2007 - 2008
- The first "payment on account" for 2008 - 2009

The impact that your Tax Bill has on your cash flow will vary dependant on individual circumstances, be proactive and take control of your finances and avoid the penalties you would incur if you were to make a late payment.

Braemar can assist with your finance requirements allowing you to be one step ahead and have your finances in place when your Tax Bill arrives.

In addition, Braemar specialists in Tax Efficient Practice Finance specifically in:
- Equipment Finance
- Vehicle Finance
- Computer Finance
- Practice Loans
- Personal Loans
- Commercial Mortgages
- 0% Patient Finance Facility

Whatever your financial needs, call us on 01563 852100 where we are available to discuss your finance options.

Composites based on innovative nano-technology, Tetric EvoCeram and Tetric EvoFlow, combine with adhesives, such as these Adhese One and Excite which are both available in the unique VivaPen delivery system, to open up new restorative possibilities for Dentists. Excellent handling, chameleon effect, high marginal quality and wear resistance.

Similarly, easy-to-use and patient-friendly accessories, such as the flexible mouth opener Optragate Extrabot, the anatomically shaped Optradam and the innovative contact point instrument Optracut and Optrasculpt shaping instrument with its interchangeable tips.

Finally, high-performance light-curing units, such as the award winning cordless Bluephase light-cure range, enable complete polymerization for optimised physical properties.

For further details contact your local Representative, visit www.iovolavivident.co.uk or telephone 0116 2847880.

Ivolavivident Ltd
All-ceramic Restorations

Ivolavivident offer a choice of all-ceramic options, enabling Dentists to provide their patients with the perfect all-ceramic restoration for every indication.

The IPS e.max system enables Dentists to provide beautiful single or multiple unit all-ceramic restorations using a range of high strength materials, including zirconium oxides. The final restorations offer an exceptional balance between strength (up to 900MPa), colour saturation and translucency. It is recommended for crowns, bridges, inlays and onlays in both the anterior and posterior region.

The IPS Empress system is another popular choice for crowns, inlays, onlays and veneers. It is available as IPS Empress Esthetic, the laboratory pressed ceramic system and IPS Empress CAD blocks for use with Cerec and InLab CAD/CAM Technology.

Both IPS e.max and IPS Empress are available in a wide number of A-D shades including four new BL Bleach shades.

To locate the nearest Laboratory offering you the benefits of IPS e.max, IPS Empress Esthetic visit TheLabFinder.co.uk.

For further details contact your local Ivolavivident Representative, visit www.iovolavivident.co.uk or telephone 0116 2847880.

SYNERGY® D6
The aesthetic nano composite for simplified filling therapy

Coltene/Whaledent presents something new and innovative. SYNERGY® D6 can eliminate the natural shadex system with its uncompromising aesthetics and also from the years of experience with the SYNERGY® Duo Shade System with low shrinkage, optimum processing properties, fast polish ability and high resistance to exposure to interacting lights. The Duo Shade System uses one shade component for two Vita® shades to simplify selection.

SYNERGY® D6 provides the user with a simple, safe and highly aesthetic filling procedure with easily compoundable shades. Simple selection of shades is a special feature; the result is a selection with only one dentin and 2 enamel shades. The shade is selected with the unique anatomically shaped shade guide, which is manufactured from composite. The two components, dentin enamel, can be nested together and the dentist can select the matching shade combinations easily. It’s so simple!

BIOMET 3i
Better For Your Patients, Better For Your Practice

Miris 2
Miris 2 is a development and improvement based on existing Miris outstanding technology. A radio-opaque, highly filled nano-hybrid composite providing excellent restorations that meet the highest expectations with harmony of light, material and colour; a new way to look at aesthetic dentistry from Coltene Whaledent.

The Miris 2 natural layering concept, which differentiates between younger, adult and older patients, is combined with a newly adjusted unique shade guide which shows a combination of enamel and dentin layer that allows an accurate preview of the finished restoration and perfect natural mimicry, brightness and vitality. With optimised handling properties and reduced shrinkage, Miris 2 has been kept as simple as possible to use whilst still providing distinctive characteristic properties and opaqueness.

Until December 2008 you can receive a free iPod when you purchase 17 Miris2 refills over a 6 month period.

Call Coltene Whaledent on Freephone 0500 295454 exts 225/224 for your information pack or to organise a demonstration.

Best of Both Alloys

Uniloy Dental Alloy from Unodent range of products uses a liquid atmosphere process that produces a material which combines the best of both types of alloy – low cut and spherical. Uniloy handles like a conventional lathet cut alloy, but exhibits the high, polish lustre of a spherical alloy. Uniloy is just one of Unodents popular range of alloy materials. It can be used for a range of cavity classes, offers excellent handling properties and is easy to place, condense and polish. The product comes in two different presentations – a soft activating capsule or powder – both of which are Zinc-Free and available in either Uniley 44.5% (high copry) or Uniley 70% (high silver) options.

If you want a cost-effective restorative material that offers value without compromising quality phone (0800 585585), fax (01576 500 581) or order electronically via the Internet (www.dental-directory.co.uk).

As we all know it is vital to keep up to date with the latest advances in the field of dentistry, and none is truer that than of the world of implants.

BIOMET 3i offer outstanding professional education taking into account the most recent advances in the implant world as well as innovative technologies and the advanced techniques that are necessary to improve the procedures associated with implant work.

BIOMET 3i offer a wide selection of educational initiatives for dentists and trainees from one-day courses through to comprehensive 12-month programmes. These highly regarded courses are led by professional lecturers and clinicians enabling you to learn first-hand of the latest techniques.

BIOMET 3i’s dedicated training and education coordinator is always available to offer guidance and advice.

As well as the core training courses, BIOMET 3i hosts many locally based educational events around the country, from practice building sessions to informative evening lectures.

For more information, please call BIOMET 3i UK & Ireland on 01624 829514.

Aesthetics/Finance

Braemar Financial

Braemar Financial, a direct lender to the Dental profession, has introduced a tax funding facility to ease the impact on practice cash flow.

- Tax Bill Deadline 51st January 2008

Whatever your financial needs, call us on 01563 852100 where we are available to discuss your finance options.

Saving Laboratory costs it enables Dentists to design and create all-ceramic inlays, onlays, partial crowns, veneers and crowns for the anterior, premolar and molar regions in one visit. CEREC® utilises a digital image taking technique to capture the data which is then used to design the restoration which is then milled from a solid block in the milling unit.

In combination with adhesive bonding techniques, CEREC® creates biocompatible, non-metallic, natural-looking restorations from durable high-translucency materials in a single treatment session and without the need for provisional restorations.

For further information, contact Ceramic Systems Limited on 01932 582958, e-mail j.colville@ceramicsystems.co.uk or visit www.ceramic-systems.co.uk.

CEREC from Ceramic Systems

Over 600 Dentists have bought CEREC® from Ceramic Systems (CEREC®) in order to double their profits. To celebrate their 10th Anniversary of selling CEREC® in the UK, Ceramic Systems (CEREC®) are inviting anyone interested in evaluating this amazing Practice Building product to a free demonstration at The Courtyard Dental Institute.

CEREC® is a computer-aided method for creating precision fitting all-ceramic restorations at the chairside.
