Outstanding ergonomics in its most attractive form

The KaVo treatment unit ESTETICA E80 with its innovative suspended chair concept can be optionally adapted to the everyday needs of the dental practice. Both the dentist’s and assistant’s elements are provided with a configuration and an ergonomically perfect instrument layout ready for the future. The new AL-702 motor with optional endo-function, and the possibility of integrating the surgery motor SL 590, makes additional, expensive instruments superfluous. The integral communication system ERGOcom 4 connects the ESTETICA E80 to the practice system and delivers information directly to the treatment area. USB interfaces at both the dentist’s and the assistant’s elements enable USB suitable equipment to be connected to the unit at any time.

The ESTETICA E80 is equipped with automated hygiene functions for easy, time-saving hygiene procedures. For information or to arrange a visit from a KaVo Equipment Specialist, regarding the full range of KaVo products and services including dental units, handpieces, imaging products, surgery planning, cabinetry and flexible finance please contact us on Freephone 0800 218020.

Dental Art

Presented for the first time at Dental Showcase and greatly received, there are plans to launch the new product line of Dental Art cabinetry. Intro- duced to complement all aspects of the A-dec range, this Italian designed product offers a contemporary and stylish ad- dition to the A-dec family of products. Since 1975, Dental Art have designed and manufacture- ted cabinets and furniture for the dental industry. Now, in conjunction with A-dec, they offer an exclusive line of products to the UK market. Available in a selec- tion of colours, finishes and specifications, A-dec are ex- cited to offer a further product dimension to the extensive line of established products.

Prices and designs are available from A-dec dealers and an example of the cabinetry available can be viewed at select A-dec showrooms. Please contact Adec for more details on 02476 559091.

The BOS reviews some annual highlights

On Reflection

2008 saw The British Ortho-odontic Society’s (BOS) Chair- man Dr Iain Ithaboria address a Parliamentary Health Select Committee at the Houses of Par- liament as it continued its strong political lobbying to peti- tion for a more sustainable, fair and consistent orthodontic pro- vision across the country.

The BOS Annual Conference took place between 14-16 Sep- tember 2008 and attracted a substantial number of members to Brighton.

Each year, an outstanding contributor to the world of or- thodontics is invited to give the Northcote Memorial Lecture at the conference. This year there was no exception when Dr Nigel Harradine, Chair of the BOS Chairman Elect presented a perceptive address on ‘self-ligation: past, present and future’.

On the International front, the BOG will attend the 7th IOG which is taking place in Sydney, Australia in 2010. The event is staged by the World Federation of Orthodontists (WFO) and will be hosted by the Australian Society of Orthodontists.

Get a FREE trip to Copenhagen

With Hea Dental you’re in safe hands!

Heka Dental are inviting Dentists to visit Wonderful Copenhagen to see their fantastic design and production fa- cilities, as well as their beauti- ful city. They will be arranging several trips a year, which will normally run from Thursday morning to Saturday after- noon. During which time their guests will have an opportunity to visit their factory as well as enjoy some of the delights of Wonderful Copenhagen. If Dentists order a Heka Dental package before or during the trip, their visit ( including flights, hotel, lunch and din- ners) will be free. If they do, they will only pay for the flight and hotel.

The extensive Aseptico range includes portable patient chair as well as operators stools and lights. There are a number of different delivery units available offering either electric or air turbine as well as high or low volume suction all including 5-hl-1 syrings.

For more details on the range of Aseptico products sup- ported by Velopex, in the UK, please see: www.velopex.com and follow the right hand scroll

bar to the Aseptico range. If you would like a demonstration, please contact Velopex. Tel 0141 268 6976

Secure Your Future with CEREC

One tried and tested method of raising revenue whilst trading in difficult times is to offer your patients something that they can- not necessarily get from other dental practices locally which has a real advantage for the pa- tient. This is achievable with the CEREC CAD/CAM System from Sirona Dental Systems Ltd.

CEREC is proven to increase profits plus it adds the “wow” fac- tor to any practice. CEREC en- ables you to provide your pa- tients with same day crowns, bridges etc without the expense and time of waiting for the labo- ratory to construct the prothe- sis. The finished prosthesis is in- cahy aesthetic, exhibiting excellent strengths and the mar- gins are superb too. CEREC ac- curately compiles the occlusal contacts saving you from mak- ing any further adjustments.

In addition to these, Dental Services Direct is delighted to now also offer the TR Series of integrated treatment units from Stern Weber.

For further information on the TR Series and all other avail- able chairs contact your local Dental Services Direct sales office: Scotland & the North 01452 600 510, South 0845 600 520, South West 0845 600 550.

Scaling Made Simple with the R&S Ultrasonic Scaler

Realistically priced is the R&S Ultrasonic Scaler, available exclu- sively from Dental Sky. This light, small and portable ultrasonic scaler, quickly, effectively and effi- ciently removes dental calculus and stains from the tooth surface.
The handpiece of the R&S Ultrasonic Scaler is cast from titanium alloy to ensure sound mechanical function and durability.

The scaling tips are designed to ensure easy cleaning of the tips and are available in an assortment of patterns so subgingival tartar is now easy to eliminate. Replacement tips are competitively priced from just £19.95 + VAT, in a range of 5 patterns for ease of use. The lead wire of the R&S Scaler is made from silica gel, it is soft, flexible and most importantly, durable.

With electric-magnetic controllable water, the R&S Ultrasonic Scaler is easy to use and will not drench your patients making the whole scaling experience more comfortable for you and your patients.

For further information from Dental Sky please call 0800 294 4700.

Sident Dental Systems

New Teneo Treatment Centre

Sident Dental Systems’ NEW Teneo Treatment Centre offers many exceptional innovations and is designed to reduce the operator’s workload, leaving them free to concentrate on the patient instead.

It offers clinicians simple and intuitive operation via its EasyTouch user interface, wireless foot control for optimum flexibility without cable clutter, intuitive and dynamic seating via the HUGO stool, and an array of patient communication and entertainment tools.

It offers patients easy access and new ergonomic mobility via its innovative chair elevation system, comfortable positioning for patients with restricted mobility, a new motor-driven headrest that facilitates optimised positioning of their head, and other feel-good factors including thermo upholstery, massage and lumbar support functions.

Teneo’s EasyTouch user interface adapts to the clinician’s treatment workflows, while its integrated endodontic and implant functions eliminate the need for separate table top units. Manufactured to the highest standards it has a maintenance-friendly design which can be easily accessed for remote diagnosis.

For further information call Sident Dental Systems on 01952 582900, email j.civil1@ sident.co.uk or visit www.sident.co.uk.

Highline Bespoke Storage Solutions

Highline bespoke healthcare storage solutions, from Support Chair, are the ultimate answer in mobile storage systems.

Available in a choice of nine formats they are extremely versatile and meet the exact storage requirements for each and every individual. Probably the reason why Highline cabinets are becoming so widely used in clinics, surgeries, laboratories and treatment rooms.

Composed of modules, which contain sets of 4 different drawer sizes, they can be combined in one of nine models to create units of the required height, width and mixture of drawer sizes to suit the individual.

Stylish and efficient, Highline bespoke storage solutions are engineered to last. They are constructed from a combination of aluminium, steel and high-quality plastics, which are resistant to most stains including blood, The drawer fronts are available in either simulated aluminium or navy metallic finish.

When slotted under fixed work surfaces, Highline offers a very economical alternative to more expensive fixed unit.

For further information telephone Support Chairs on 01296 581764, fax 01296 586585, email sales@support stool.co.uk or visit www.supportstool.co.uk.

50 Day Trial from Bambach

Bambach Saddle Seat are so convinced that you will gain from the health benefits offered by their unique seat that they are offering you a no obligation 50-day trial in the comfort of your own surgery.

Using a Bambach Seat greatly reduces back strain allowing your spine to function in its optimal, balanced axis, resulting in improved posture and reduced fatigue. This is achieved by maintaining the perfect spine, preventing the discs from being put under pressure. The hips positioned at 450 to the spine, so the trunk and thigh muscles are at their most relaxed.

Endorsed by the Australian Physiotherapy Association, the Bambach Seat is available in a range of 14 vinyl colours, 16 hard wearing leather as well as 5 pure new wool to perfectly match your décor.

To see for yourself, simply contact Bambach to arrange a 50 day free trial in the colour and fabric of your choice.

For further information please contact Bambach directly on 020 8525 1100.

Oral probiotic counteracts bleeding gums by interacting with the immune system

A new study confirms that the oral probiotic marketed by Sunstar as GLMP/PerioBalance in the UK and produced by BioGaia containing Lactobacillus reuteri Prodentis reduces gingivitis (inflamed gums). The study also shows that the Lactobacillus reuteri Prodentis can interact directly with the human immune system to reduce inflammation.

Professor Tveitman says “The importance of this study is not only that it supports earlier findings that L. reuteri Prodentis can be effective in the treatment of gingivitis, but also that it points towards an extended mechanism of action beyond the ability of fighting off pathogens. Our immune system involves mediators that promote inflammation when they are “turned on”. Our results suggest that these media tors can be down-regulated by L. reuteri Prodentis.”

In the study, 42 subjects with moderate gingivitis were randomly assigned to receive either chewing gum containing Lactobacillus reuteri Prodentis. The number of bleeding sites was reduced in both groups taking Pro dentis chewing gums, by 85%.

For more information about GLMP PerioBalance visit www.sunstargum.co.uk. The product is available for dental wholesalers including Dental Shop, visit www.dentalshop wholesale.com.

Support Chairs

Ergonomically designed for optimum comfort!

Maintaining a correct posture is essential for operator efficiency, comfort and health. This is particularly important during procedures, where the clinician spends long periods bent over a patient. Poor posture can result in back pain, a problem that haunts many Dentists causing discomfort, reduced working hours and sometimes early retirement.

Support Chairs’ Support Stools have been developed for professionals working in sedentary positions, where both body support and the ability to move freely are essential. The seat and back of the Support Stool is designed to take the weight off the incumbent’s back and provide maximum comfort; the fully adjustable back support and bowl-shaped seat ensuring a proper posture.

The Spittalton features a one-piece ceramic top with the Suc tion CVS mounted on an articulating arm.

All services are integral within the chairbase so there are no unsightly umbilical tubingst to trip over. Indeed, this chair obtains its attractive appearance from a clean uncluttered design. Add to this its exceptional quality and you will be surprised that the price is so reasonable.

For further details please contact TRIDAC DENTAL EQUIPMENT LTD. Tel: 01925 242598 Fax: 01925 258686

Midmark Introduces

New Ultrtrim, Thin Back Dental Chair

Midmark has launched a new, thin and narrow back for its dental chair called the Ultra trim™. This chair extends Midmark’s current dental product line, which also includes the UltraComfort™ chair back.

The new back is designed to accommodate clinicians who prefer direct access to the oral cavity when approaching the patient from the nine o’clock position without sacrificing the patient’s comfort. The back is also designed for dental hygienists who move around the patient’s head as they operate.

The Midmark Dental Chair combines the latest technology with the highest quality components. Quality is clearly evident in fit, finish and materials. Patient access and comfort is enhanced by the patented integrated arm rests, advanced lumbar design and sculpted seat and back that securely supports the patient for comfort in all positions.

The Midmark Dental Chair is available in state-of-the-art operatory configurations complete with advanced lighting so...
