No Pain is your gain!

Look across any practice or reception area and the chances are you’ll see staff slouched on their chair in a position guaranteed to deliver a lifetime of bad backs, sore necks and painful shoulders.

Over 9.5 million working days are lost annually in the UK due to back problems and most of these could be saved by sitting in a better position more of the time.

Sitting in comfort whilst working is easy to achieve with the ergonomically-designed DynaNoSeat or InCharge stools from Evident. These wonderful stools automatically correct your seating position, providing the perfect balance, maximum support and comfort, ensuring you work in comfort all day long.

We are so confident you’ll benefit from sitting on a DynaNoSeat or InCharge stool; we’re offering a Free 2 week in-practice trial, so you can see for yourself the fantastic benefits of sitting comfortably.

The DynaNoSeat and InCharge stools will also have an impact on your practice as they are available in a variety of styles and colours, however they won’t have an impact on your bank balance as they are remarkable value for money.

Taking Technicians To The Top

‘Luke Barnett The Precise Art of Technical Dentistry’ were proud to sponsor the British Academy of Cosmetic Dentistry (BACD) Fifth Annual Meeting held in Birmingham on the 13th to the 15th November 2008.

Luke Barnett began his career in Technical Dentistry and specialised in dental ceramics. He set up his own business in 1985, now a state of the art facility in Watford, Hertfordshire. Luke is on the Sub Committee and Board of Examiners with the BACD and the Laboratory Committee Board of Directors, and a sustaining member of the American Academy of Cosmetic Dentistry.

Whilst being passionate about general Crown and Bridgework, his approach to cosmetic dental treatments involves careful planning for minimally invasive solutions.

The BACD is open to all dental professionals including dental technicians, who play an increasingly important role in today’s cosmetic treatments. Luke the BACD, Luke is dedicated to the treatment of dental technicians, who play an increasingly important role in today’s cosmetic treatments. Luke is dedicated to the treatment of dental technicians, who play an increasingly important role in today’s cosmetic treatments.

The BACD also produces a Directory and has distributed copies of the 2008 edition to all its dental practitioners, supplying them with a guide to its members. For your copy, contact the BACD today, and put world-beating expertise at your fingertips!

For more information ask your local Minerva Representatives or telephone 029 20 142800.

2009 Is The Year For BioHorizons

BioHorizons are worldwide distributors of pioneering implant products and are constantly developing new exciting ideas. They believe education is fundamental to the success of any business.

2009 will see a whole host of implant courses that professionals will want to miss.

The BioHorizons Surgical & Restorative Implant Training Course will take place on Saturday a month from January to October. It will concentrate on the surgical and restorative aspects of dental implantology.

Dr Michael McCracken will be returning to present the Surgical Placement & Restoration of Dental Implants course. The ‘Sinus grafting & Posterior Maxilla implant Dentistry’ will also be returning with fresh, new lecturers.

For more information on the ASPD and its members and services, please call 0800 458 0773 or visit www.aspd.co.uk

Tots and Teeth

Children’s Practice Benefits with PracticeWorks

Toothheary Ltd, located in Richmond upon Thames is a state-of-the-art dental practice dedicated to the treatment of children. It adopts the fundamental philosophy of making each visit fun, eliminating worry and promoting optimism and lasting oral health.

Principals Dr. Cheryll Lee Butz and Dr. Nicole Sturzenbaum began developing the highly anticipated practice back in 2006. Having already established a successful children’s practice in Germany, Dr. Butz was amazed there were few private, child-focused dental practices in England.

Incorporating the best possible external materials, the practice needed the same high standards internally. The practice decided on the BACD’s BACD Dental Practice Management Software from leading providers PracticeWorks as it was the perfect solution to accommodate the logistics and legal issues of a child-only practice.

BACD is the perfect choice for the future of dental practice as the software allows all appointment books, clinical charting and notes, accounts and medical records to be stored centrally and accessed easily eliminating any added stress.

For more information call PracticeWorks on 01295 905 115 or visit www.practiceworks.co.uk

Integrated Dental Holdings (IDH) would like to congratulate the Keighley team reaching their 10-year milestone. Being committed to professional standards, achieving results and addressing your team work are just some of the qualities that have helped the Keighley team achieve this monumental success.

As one of the UK’s leading dental groups with 2 million patients and a network of over 250 practices nationwide, IDH offer outstanding resources and support with patient-focused practices and always offer superb service.

This is an incredible accomplishment and IDH would like to thank the team for all their effort and dedication. They have worked extremely hard and have continually provided quality service all these years. IDH look forward to celebrating the next 10 years with the team.

With over 1500 professionals including over 850 dentists, IDH has a support infrastructure and facilities like no other dental group. No one will work harder to ensure these high standards are delivered.

To find out more about IDH, please call Gemma Bradshaw on 01204 799 751 or email gbradshaw@integrateddental.co.uk

The highly successful Global Symposium will be running in Chicago, Illinois from April 30th – May 2nd 2009. This course is extremely popular and spaces are limited so make sure you register for you place now.

For more information and to reserve your place on any of the courses, please call 01544 752586, email info@biohorizons.com or visit the website at www.biohorizons.com

Space maintainer/creation kit

Ortho-Care (UK) Ltd. introduces the new EZ Spacer. This comprehensive kit offers the clinician a simple way to create space and upright molars with or without fixed appliances. The interdental space can be controlled by using the compressed ni-ti open coil that sits within two drums. The last 2mm drum is bonded onto one tooth, and by the elasticity of the compressed coil spring, the smaller inner drum pushes out the adjacent tooth to create and maintain the necessary space.

The kit is ideal for uprighting teeth to create space prior to placement of implants or dental prosthetics and is simple to use.

The complete kit consists of 10 pairs of both size drums measuring from 2.6mm up to 9mm; 1 holder; 1 checker to measure the mesio-distal space; Ni-ti open coil and 10 x 12mm space maintainers that can be cut to size.

For more information please contact your local Minerva Representative or alternatively telephone Customer Services on 01274 592017, Email info@orthocare.co.uk or visit the website www.orthocare.co.uk
