Ultrasonic Instrument cleaning

Alkazyme® enzymatic a combined cleansing and disinfecting agent for the thorough cleaning-pre disinfection of all reusable, irredeemable dental instruments prior to autoclaving.

Quick cleaning action

When used in conjunction with a standard ultrasonic cleaner a maximum four minutes treatment time is all that is required to render soiled instruments clean, fully disinfected and ready for use.

Centralised Disinfection

Alkazyme® continually discharges the contaminated water as created within the ultrasonic cleaner.

Economical

Just five grams of Alkazyme® with ordinary tap water makes one litre of enzymatic cleaning/disinfecting solution

Choice of user format: Available from all dental sundry suppliers in both 700gm powder tub and kit of 100 easy dose water soluble sachets.

For comprehensive product information visit www.alkazyme.com

The Dental Directory – great products from all leading names in dentistry

The Dental Directory is one of the leading names in dentistry, and has built a strong reputation based on providing quality goods at affordable prices.

To showcase just some of its fantastic new offers, The Dental Directory has launched its latest catalogue, which will run from April until the end of June and features a huge selection of infection control products at very special prices. These include surface cleaners, disinfectants, wipes, gowns, autoclave equipment and accessories to name but a few.

As you would expect from one of the UK’s leading dental suppliers, all the products listed in Pricewatch are designed to comply with the latest decontamination guidelines provided by HTM 01-05 and the CQC.

To learn more about Pricewatch and The Dental Directory’s fantastic range of infection control products, speak to your Dental Directory Representative, call 0800 530 586 or visit www.dental-directory.co.uk
Dental Gateway - Join the practice revolution
Post vacancies for free charge Dental Gateway has revolutionised the dental recruitment in the UK with a quick, convenient and cost effective service for dental professionals.

The UK’s only dedicated dental recruitment website, Dental Gateway allows you to post vacancies for free. This is to help you find the perfect candidates and maximise your revenue. You can also post any number of vacancies at no charge. Once satisfied that you have found a suitable candidate, simply purchase credit to complete the process. Each booking creates a unique profile, which includes qualifications, skills and availability, making it easy for you to find the right candidates. There is even a video chat option for temporary staff, to help you find the best candidates at short notice. With an ever-growing database of available dentists, nurses, hygienists, practice managers, receptionists and more, Dental Gateway has everything you need in one place. Register with Dental Gateway and enjoy a user-friendly and efficient interface.

RPA Dental - we heart dentists

In a competitive world of dentistry, some companies stand out on more than just price alone.

As RPA Dental we understand that practices are often looking for a reliable, cost-effective equipment provider – something extra that makes a practice stand out from the crowd.

That’s why we launched i4dentists – www.i4dentists.com – a campaign that represents everything we stand for, for a campaign designed to show our dental practice partners how we can help.

As a UK-based dedicated family business, we probe ourselves on knowing each one of our clients personally, knowing exactly what they have, where they have it, knowing nurses on first names terms, and the importance of customer care, who needs where when and where the seth will fit. It’s this kind of care and customer support that we feel makes us stand out and head shoulders above other equipment providers as we really do heart dentists, and we think you’ll heart us too!

To discuss your requirements or to arrange a cuddle, give us a call on 0800 993 077 or visit our equipment website, www.rpadental.net
