Incorporating the best of industrial micromonomer innovation from Dufert, Kalore features an exclusive low shrinkage technology that means that during and after polymerization, adhesion between the fillers and the resin matrix is maintained with increased strength, the integrity of the restoration especially at the margins is ensured. Kalore offers you a revolutionary package in aesthetic restoration technology. GC takes dentistry to a new level by solving a number of common problems related to impressions like improperly detected predictable impressions under all conditions. EXA’lence represents the next generation impression material. EXA’lence possesses high elasticity and tear strength, combined with constant hydrophilicity and excellent flow - the result being one of the most accurate impressions obtainable in the market today. EXA’lence is predictable in an unpredictable environment and virtually eliminates any discrepancy. EXA’lence provides an incredible level of detail that is paramount for optimal fitting restorations. Every aspect of the GC technology is designed to make it the ideal material for every dentist and technicians on the path to clinical excellence. For further information please contact GC UK on 01908 218 999.

Wibrajet – The device that gives dentists greater flexibility and success possible

Research shows that one in four patients fear injection, but this fear can be completely eliminated by completely eliminate the pain of injections by using a new innovative device called Wibrajet.

Wibrajet attaches to a conventional dental syringe and has been used successfully in the USA for many years. The device is inserted over the tip of the syringe. When the needle presses the gum two messages are simultaneously transmitted to the patient’s brain - the vibration message and the painful message. The vibration message arrives at the brain first - probably because it is carried on thicker and better insulated nerve fibres. The brain cannot cope with two messages arriving at close together and only registers the vibration.

With Wibrajet, patients can look forward to being able to make their way to dentist in the UK and will finally remove one of the greatest barriers to the uptake of dental treatment.

Orders for Wibrajet can be placed at: www.wibrajet.co.uk, by post, tel 01747 823222.

For more information - including research papers - can be viewed on the website at www.wibrajet.co.uk.
Takara Belmont
Takara Belmont will this year be displaying its range of treatment centres, the Class II, Clion II and Voyager II. All facilitate multiple working methods and dental procedures whilst offering optimum patient comfort at all times, making each a flexible and versatile addition to any surgery. With ease of access and consultation in mind each Treatment Centre has foldaway or removable armrests whilst the Class II has its unique and valuable folding leg rest. A diverse range of delivery systems are also available, the Class II for example can be supplied with traditional Over-Patient Holder or continental Rod type, Cabinet or Mobile Cart options. Total flexibility of use is made possible by the Voyager II which has the advantage of being ambidextrous whilst the Class II can be factory modified for either left or right handed use. Functionality can be further increased by the addition of factory build-in features such as micro-motors, fibre optics, scalers and LED curing lights. All models are available in both air and electric versions. Each model boasts durable, easy to clean upholstery in a vast array of colours, ensuring good looks and best hygiene standards.

Water Pik, Inc. to launch the New NANO™ Water Flosser at 2011 BDA Conference
Delegates attending this year’s BDA Dental Conference & Exhibition should be sure to make their way to the Waterpik® stand (A46) for our offer of a part of the launch of the brand new Waterpik® Nano Water Flosser.

The latest revolution in ergonomic dental irrigation, the Waterpik® Nano™ Water Flosser is compact, energy efficient and quiet, allowing patients to enjoy all the benefits of interproximal cleaning and effective plaque biofilm removal without the problems associated with traditional string floss.

Like its predecessors the Ultra and Cordless Plus Water Flossers, the Nano™ is clinically proven to be twice as effective as traditional string floss at removing plaque biofilm. Normally retailing at £49.99, BDA conference attendees will be able to purchase the Nano™ at a special conference discount. Alternatively, they can pick up their free sample Nano™ by attending the Waterpik® seminar. Details and vouchers will be available from the Waterpik® stand (A46). Committed to patient oral health, Water Pik, Inc. is proud to be launching the Nano™ Water Flosser exclusively to BDA delegates.

For more information on the range of Waterpik® Water Flossers speak to your wholesaler or visit www.waterpik.co.uk. Waterpik® products are widely available in Boots stores and selected LloydsPharmacies.

Learn about learning with Smile-on at the BDA Conference 2011
The past decade has seen Smile-on go from strength to strength, building a solid reputation as a leading provider of learning solutions in the dental industry and you can find out why at the BDA Conference and Exhibition from the 19th to the 21st May at the Manchester Central Convention Centre. Situated at stand A18, the Smile-on team will be on hand to help you explore the options available to you should you wish to gain new skills and qualifications. With e-learning packages for undergraduate and postgraduate qualifications, validation and CPD requirements for the whole dental team, Smile-on are sure to have what you need to enhance your knowledge on a variety of subjects from radiography to legal and ethical issues.

Each of Smile-on’s popular courses is presented with specifically designed e-learning programmes, interactive webinars, and in-practice training sessions and includes topics such as:

• Oral Cancer Prevention, Examination and Referral

For more information call 020 7400 8989, visit www.corecpd.com or email info@smile-on.com.

For better dentistry
DENTSPLY
Visit DENTSPLY at the BDA Annual Conference 2011.

The DENTSPLY team will be available at stand B4 at the British Dental Association Annual Conference & Exhibition 2011 to answer dentists’ questions on all the products in the company’s popular collection of high quality equipment and materials. Held at the Manchester Central Convention Complex from Thursday 19th until Saturday 21st May, the BDA Conference is the largest, most established combined conference and exhibition in the UK. DENTSPLY’s latest innovations will be on proud display, including SDXTM (Smart Dentiste Replacement), a flowable, bulk-fill composite base that makes the placement of Class I and II restorations easier than ever before. Also on display will be DENTSPLY’s new innovative endodontic file system, WaveOne. Simple and easy to use, the WaveOne system allows the clinician greater control while preparing the canal. Delegates will also be able to learn more about DENTSPLY Academy’s wide range of inspirational courses on subjects such as restorative dentistry, treatment planning and endodontics. Experience the quality of DENTSPLY products for yourself and take advantage of promotional offers on a wide range of DENTSPLY products at this year’s exhibition.

For more information, or to book an appointment with your local DENTSPLY Product Specialist, call 0800 073 3313 or visit www.dentply.co.uk.

A-dec
A-dec will be exhibiting at the 2011 BDA Conference in Manchester and look forward to the opportunity of welcoming you to Stand D19 to experience a selection of equipment packages and cabindery from the current range, including the new A-dec 200.

Members of the A-dec team will also be on hand to give guidance and advice on what’s new from A-dec. As one of the world’s leading dental equipment manufacturers, A-dec designs, builds, and markets much of what you see in the dental treatment room. Our range includes chairs, stools, delivery systems, dental lights, cabinets and infection control units along with a full line of accessory options. For further information about the A-dec range, contact us today: Tel 0800 233285 (freephone) or 02476 350901 Email: info@a-dec.co.uk

More details can also be found on our website, www.a-dec.co.uk.
