At the BDA Conference in Manchester between 20-24 April 2012 delegates are encouraged to try the Philips' latest innovations for themselves on its Stand. On display will be Sonicare AirFloss which dispenses rapid bursts of air to propel debris between the teeth at 45 miles per hour dislodging plaque biofilm, while leaving the gums unscathed.

Just when it was thought that toothbrush technology could not be enhanced, Philips unloaded Sirona-Cheil Dental Care’s Econo Apex, propelling sonic toothbrushing to a new height of tooth-sophistication. Its fine brushing modes and astonishing new-to-the-world technology, a gel and UV light travel case.

Philips’ Zap mouth is the most frequently patient-requested professional whitening system. The advanced LED light therapy emits at the optimal light spectrum, with 100 per cent greater light intensity than the closest competitive lamp (1). The light then activates a photo catalyst within the gel to greatly increase the efficiency of its whitening process. The Zap mouth is a fantastic patient experience, providing unsurpassed protection.

With CEREC significantly improves the quality of treatment for patients, as well as allowing you to create probably the most life-like, perfectly fitting crowns, on chairside.

Software version 4.0 late last year. With intuitive operation this new software makes demonstrating compliance pain-free. We also give you expert advice through our dedicated account managers to help you understand CEREC software needs.

Dedicated additional support managers and expert consultants are on hand to offer you tried and tested business support when you need it and you can get help with marketing your practice and increasing your patient base with support from our in-house design and marketing teams.

Most of all, we have an innovative team working on your behalf to develop services you need and help you retain and increase your patient base.

Many more than just a membership plan provider, we provide a whole host of business support services dedicated to helping your practice grow.

The British Dental Nursing Society would like to congratulate Dr Linda Greenswell, Chair of the BDNS for achieving recognition in the annual Dental Times Top 50 poll.

Voted for by the readers of Dentistry magazine, Dr Greenswell successfully reached number 12 in the top 50, proving her excellence and commitment in dental nursing.

The British Dental Nursing Society is a voluntary organisation that represents dental nurses who provide care to patients in the UK. It is the professional body for dental nurses in the UK.

Dr Greenswell was awarded a place in the Top 50 after being shortlisted in the annual ceremony. The annual ceremony is held to celebrate the nurses who have made significant contributions to the profession.

The Top 50 list is compiled based on the following criteria:

- Professional excellence in the delivery of dental nursing care
- Leadership in the dental nursing profession
- Contribution to the advancement of dental nursing
- Contribution to the dental hygiene profession
- Contribution to the advancement of dental hygiene

Dr Greenswell is a long-standing member of the BDN and has been involved in various aspects of dental nursing, including education and research.

Dr Greenswell is currently the chair of the BDN and has been involved in various aspects of dental nursing, including education and research.

She is passionate about promoting the role of dental nurses in delivering quality care and has been instrumental in raising the profile of the profession.

ELGA Process Water, a Veolia Water Solutions & Technologies company, is proud to announce the launch of its online loyalty programme called ELGA AQUAclub.

The AQUAclub 'buy and save' programme offers registered customers the chance to purchase ELGA products at exclusive prices. ELGA AQUAclub members can save between 10% and 15% on a wide range of products from the ELGA Process Water product catalogue.

Becoming an ELGA AQUAclub member is easy. ELGA Process Water is offering special prices for new customers who register for an account in May.

As a new member, you will receive 100 points. These can be redeemed for any ELGA product of your choice.

For further information or to place orders call Helen or Jackie on 01703 770000 or visit our website www.elgawater.co.uk.

New training collaboration between UMO Professional Ltd and award-winning Menagerie Theatres

UMO Professional has announced the launch of an integrated theatre and seminar programme for dental professionals. The first, Exceptional leaders – outstanding teams: what’s your story?, has been designed to develop leadership and teamwork to help dental professionals to achieve more of what they set out to do. The course is facilitated by two of the most influential teamwork trainers in the industry: Panvini Paul Bourne, Artistic Director of the Menagerie Theatre, Company, in a one day intensive training course, with a comprehensive programme of theory and ‘hands-on’ sessions.

The course has been designed to support the professional development of dental professionals. It is designed to help dental practitioners, the next generation of leaders, to make their teams and themselves more effective. It’s fun, relevant and different, but above all, it’s practical. The first course is being held in London in June. For more information about the course please contact Penny Perry at UMO Professional on 0203 215 2070 or via e-mail at penny@umoprofessional.co.uk.

Jubilee fever hits Grahame Gardner

To mark the auspicious occasion of the Jubilee of Queen Elizabeth II, Grahame Gardner have launched a new scrub top – emblazoned with the Union Jack in antimicrobial fabric. The top is reusable, washable and easy to care for and can be customised with embroidered badges or logos.
