### Dental Unit Water System Decontamination

**Makuvek** - A cleaning and disinfection agent for the weekly decontamination of the integral dental chair-side water supply.

**Kavo Water Core** - A biocide for the thorough cleaning-pre-disinfection of all reusable, immersible dental equipment prior to autoclaving.

Rapid cleaning action: When used in conjunction with a standard ultrasonic cleaner a maximum five minute immersion in the solution is required to render soiled instruments thoroughly clean and shining bright.

### Ultrasound Instrument Cleaning

**AlphaJet** - A combined cleaning and disinfecting agent for thorough cleaning pre-disinfection of all reusable, immersible dental equipment prior to autoclaving.

Continual disinfection: **AlphaJet** continually disinfects the contaminated ‘wash water’ as created within the ultrasonic cleaner.

### Cosmetic

**The Dental Directory** stocks the best products at some of the most competitive prices. Visit the website if they should so wish.

For comprehensive product information visit: www.thedentaldirectory.co.uk

---

### Curaprox

**Curaprox** - The Hydrosonic Electric toothbrush is best in class for maintaining oral hygiene. It is easy to hold and remains firm because they don't soak up water. When combined with sonic power, the brush gives a highly effective yet gentle clean. It is easy to hold the brush at the correct angle of 45 degrees, thanks to the ergonomic handle, which also helps to clean between the teeth, or hard-to-reach areas.

Three even cleaning modules to select: to increase, to remove stains and for massage, for the gums. Suitable for all patients, even those with implants, the Hydrosonic Electric Toothbrush from Curaprox is best in class for maintaining a healthy smile.

For more information call 01480 862094, email info@curaprox.co.uk or visit www.curaprox.co.uk

Taxon’s modular elements come in a range of 5 different styles with over 350 colour options, available with wet and dry surfaces. Taxon’s strength lies in the fact that one can create the perfect bespoke cabinetary ranges Taxon and RPA Dental really do offer customers a bespoke solution.

Dr. Friederich Weimer of Vaisbach Dental, spoke in detail about the inclusion of Sybron Nashua in the RPA Dental portfolio, explaining: “Excellent service from a team that can’t be matched to help us. We recommend RPA Dental time and time again.”

To discuss your requirements or for a little advice from the experts, RPA Dental offer 0800 133 9379, or visit our brand new website, www.rpadental.net.

Conservation tips – Philips issues water-saving advice

A standard bathroom tap daggers 1.5US gallons of water per minute. If you turn your bathroom taps off for 30 seconds per day, you could save over 2,000 gallons of water per year. In this way, you could lower your water bills, cut down on your carbon footprint and even save a bit of money on your water bills. If you are interested in finding a water-saving tap or a shower that can save water, contact your local plumber or visit the website of their local water supplier.

For more information visit www.sanitaire.co.uk or call 0800 0567 322.
