The DDU has again joined forces with leaders in education and oral healthcare research at the University College London Eastman to hold a conference in London on 28th September 2012.

The conference will be of particular interest to dentists, hygienists and nurses who wish to keep up to date with the latest trends and developments in the fields of: endodontics, periodontics, occlusion, implant dentistry and occlusal therapy, orthodontics, occlusal therapy, dental public health, dental law, management and business.

The programme includes a wide variety of sessions including seminars, workshops and debates and will provide an excellent range of learning opportunities for all levels of experience.

The main objectives of the conference are to:

- Review current developments in endodontics and periodontics
- Develop a comprehensive understanding of current treatment options
- Discuss the management of problems that may arise
- Learn about recent changes in dental law
- Learn about business and management challenges faced in dental practice
- Gain insights into the latest research in dental public health

Smart dental compressor solutions from Absolute Air & Gas offer free five year warranty Ekorn, the leading European manufacturer of oil- free compressors for the medical and dental markets, is launching a range of smart cabinet- based compressors in the UK and Ireland, which come packed with a five year warranty as standard. This smart solution means that its cabinets – available from Absolute Air and Gas with either mono or bi-phase motor – have achieved less than 5 l/sec OA. 2. The Ekom DK50 Plus & DK50 2V oil-free compressor cover single to multiple surgeries, are endorsed for their quality and reliability and offer an exceptional product that meets the most stringent demands of the dental industry, including HTM20/22 and medical air standards if required.

The sales team from Nuview are extremely helpful – they even came to visit the practice.

Prudential pays dividends

Prudential has used its annual distribution of profits to announce the launch of their new Dental Protection Plan.

It is usually necessary for the practice owner to respond to standard commercial property enquiries. It is important to take the time to give these answers, correctly worded answers to these questions. Details might include: The practic’s variable cost rates and not fixed cost rates; premises insurance; fixed and rolling lease; rates and rates chargeable; VAT registration; employers; HMRC; patron and tax; accounts; VAT; VAT registration; and VAT registration. These answers should be given in writing to the landlord and or agent along with the relevant documentation.

The Key Skills programme provides a benchmark for quality and design. Precision optics allow for optimal clarity and depth of field.

Further your education with Smile-on’s Key Skills.

The Key Skills qualification will enable you to increase your understanding of the importance of good record keeping and the potential pitfalls and dangers of keeping poor records.

The Key Skills 3 qualification is a valuable and useful learning experience divided into six sections covering topics beneficial to you and your entire team. Medical emergencies, infection control, laboratory, team management, legislation and practice guidelines are all covered in a straightforward format, which will help you carry out your everyday activities around your daily practice.

Smile-on wish to help you on your educational journey and all the information you need to develop your skills is at your fingertips online. The Key Skills 3 will also help you to understand your customers’ demands and to understand your patients’ needs around your daily practice.
