Small groups inspire learning and help to quickly build confidence. Each EAP session has no more than ten dentists, who are taught by a highly experienced supervisor. Participants are asked to bring along their own cases for discussion from the beginning. They can learn at their own pace and progress only when they are ready to move on to the next stage. Program provider Nobel Biocare also assists GDPs to develop referral network and market the new service to local referral partners. Together with attractive equipment packages on offer, you can begin to help patients without delay. Earn verifiable CPE while increasing your knowledge, skills and business potential with EXP from Nobel Biocare.

For information on participating in the EAP as a referring GDP to patients. Together with attractive equipment packages on offer, you can begin to help patients without delay. Earn verifiable CPE while increasing your knowledge, skills and business potential with EXP from Nobel Biocare.
