New Colgate Max White Professional is a take home whitening system that can be cleaned between every patient to minimise the dispersal of microorganisms. The team. Optima will feature on the main laboratory set that the lead actors, the saddle is soft and comfortable, and is indicated for both periodontal and endodontic work. The laser gas is ideal for soft tissue work such as frenectomy, frenotomy and endodontic work. The laser is fibre delivered - the smallest fibre being 200 microns. The GaAlAs laser has a wavelength that is ideal for minor oral surgery. Using this laser, anaerobic but can be used with local anaesthetics. Not only does the cut last but it also causes minimal cramps. The elevon Pico Laser can also be used for Tooth Whitening (of both vital and non-vital) using the elevon Pico Laser "This is a perfect unit compact and easy to use" The elevon Pico Laser is very easy to operate and the unit itself is super compact. The Laser fibre delivery system is completely free of movement on the hand piece and patient feedback continues to be positive. For more information contact Dr S Chaudhuri, elevation sales Manager, Velocity International Tel: 07734 046877.

Assessing the nation’s plaque problem: how to continue the positive trend?

Effective plaque control is the cornerstone to preventing and controlling periodontal diseases, but are you able to achieve this on a daily basis? Your clinical recommendations are key to ensuring good oral health, as well as making your patients aware of what they are. Gingival bleeding on probing is one of the signs of plaque-induced gingivitis, when present it is a condition and as such is an important indicator of gum health. How can we engage with patients to highlight the importance of maintaining good oral hygiene? Delivering Better Oral Health! An evidence-based tool kit for prevention?2 advice and support to give new patients to improve their plaque control and gingival health. The strength of evidence is ranked from level I (evidence, opinions of respected authorities based on clinical evidence and descriptive studies, to level IV: evidence, strongest from at least one systematic review, of multiple, well designed, randomised control trials). In the “Improving periodontal public health” section, level IV evidence suggests brushing teeth with a toothpaste containing triclosan and copolymer is more effective than ordinary fluoride toothpaste in improving plaque control and gingival health. Colgate Total uniquely contains triclosan & copolymer and delivers 12-hour antibacterial protection.

Taffe angle on a clip strip - innovative marketing for your practice

Taffe Angle was developed to improve access to all interproximal spaces particularly in difficult to reach areas. The angled head gives perfect access to posterior teeth without the need to bend the arm thus enhancing their durability. The innovative clip strip design allows easy placement to display the Angle brush in an effective and space saving way. Taffe Angle’s available in six colour coded sizes - pink through to green. All Taffe Interdental brushes have plastic coated wires for safety and come in three different grades, the hard handle are made from recycled polypropylene.

To celebrate its 31st birthday, the AOG has organised a family BBQ in the summer field at the Haberdasher’s Alm’s Boys School in Hornsey, everyone is welcome to share the fun and show their support for the AOG’s charitable projects and the local area.

With lots of activities to keep the kids entertained such as a bouncy castle and an interactive animal zoo, the adults can relax with supreme Indian cuisine, soft drinks and fantastic company.

Available online, non-AOG members can purchase tickets at £15 an adult and £3 for children under 16, while special members’ tickets are priced per adult at £11.

With singing groups in Ireland and India, the AOG work hard to improve the lives of people less fortunate, offering a sustainable, independent and hopeful future.

Help the AOG raise awareness and donations to continue their work ‘Towards the Greater Good’, and enjoy the fun at this year’s Family BBQ from 12 noon on Saturday 9th July.

For further details on forthcoming events or tickets, or to join, visit www.aoguk.org
