Dr Jürgen Serafin, Vice President Corporate Marketing at Sirona, explains:

As well as redesigning the website, Sirona has also extended its presence in social media. Sirona will now be able to share its updates on the social media platforms Facebook, Twitter, YouTube and Instagram.

The Saddle Lite Advanced features a soft padded seat supported by a frame which is divided into seven sections covering topics beneficial to you and your entire team.  Medical emergencies, infection control, radiography, team training, risk management and communication throughout the practice.

9. Introducing N’Durance Cristal

N’Durance Cristal is a unique combination of low shrinkage and high working and finishing ease, and fast to polish thanks to its nano-hybrid optimised filler system. N’Durance Cristal also offers ‘soft on demand’ viscosity, compatibility with all commonly used bonding agents and superior esthetics for easy differentiation from tooth structure. N’Durance Cristal is available in seven of the most popular Vita shades plus InChair, which mimics natural enamel transparence, adding ability to restorations. Clinically tested with an overall satisfaction rate of 97 per cent (data on file), why not experience the benefits of N’Durance Cristal for yourself? More information can be found on www.ndurationcristal.com. 

N’Durance Cristal is proud to be a platinum sponsor of the ninth annual Clinical Innovations Conference (CIC) on the 18th – 19th May 2012 Held at the Millennium Gloucester Hotel and Conference Centre in London’s Kensington, the dynamic event celebrated all that is innovative and pioneering in the world of dentistry. With a broad portfolio of products and services to deliver exceptional patient care, the Carestream Dental stand was a popular destination for delegates. Solutions on display included CS 34 Clinical practice management software, which behaves as the hub of the practice, simplifying and speeding routine tasks and communication throughout the practice. For innovative imaging systems, delegates discovered the CS 9300 all-in-one extracorporeal imaging system, which offers the widest range of clinical applications on the market. Also on show was the CS 7600 introral imaging plate system with its fully automated and secure e-ray workflow.

A leading conference attracts leading providers, and the cutting edge technology from Carestream Dental brings practices to the forefront of dentistry. From enhanced diagnostic capability to streamlined workflows, these solutions ensure that patients experience nothing less than the best possible care. For more information, contact Carestream Dental on 0808 109 0902 or visit www.carestreamdental.co.uk.
