BioHorizons presents its European Symposium

BioHorizons invites you to join an international group of well respected speakers for its European Symposium in Rome

between 18 and 20 October 2012.

Addressing a wide range of dental implant topics including implant aesthetics, implant complications and tissue regeneration, the symposium presents the perfect opportunity to stay on top of the latest treatment options and remain aware of what techniques and products are supported by peer-reviewed research.

The event will include presentations from Carl Michl, Michael Pikos, Jan Ricci, Sonia Loep and Brian Miller.

Also, expanding on previous year offerings, the 2012 schedule incorporates a biologics forum on the Thursday afternoon (19th October).

To find out more about this exciting event, including details of the topics to be covered, please visit www.biohorizons.com/symposium-series-Italy-2012-Lazio.

For further details about BioHorizons, a company dedicated to developing evidence-based and scientifically proven products, visit www.biohorizons.com, call 01344 735636 or email info@biohorizons.com.

To find out more about the Inman Aligner, please call 01604 728266 or email info@cosotech.co.uk.

Exclusively "ANY" Intraoral Camera lets patients monitor their oral health on their own television

A powerful new tool for helping patients to learn about their oral health is now available exclusively from The Dental Directory.

The "ANY" intraoral camera, from Gevid Dv, is a multipurpose device that can be linked to a standard television set, allowing patients to monitor their oral health from the comfort of their own homes.

Similar to a toothbrush in size and shape, the camera is simple to use for almost all patients, and can be deployed with disposable covers to prevent cross-infection between users.

Showing patients detailed images of the inside of their mouth, the ANY intraoral camera allows them to learn more about their oral health and monitor any existing conditions. It is not suitable for patient self-diagnosis.

The ANY intraoral camera is available exclusively from The Dental Directory, in display boxes of five. For more information on ANY and how it can benefit your practice, contact The Dental Directory today by calling 0800 585 585 or visiting www.thedentaldirectory.co.uk.

Hydrosonic Electric Toothbrush gives a full-mouth clean

42,000 sonic waves per minute make the Hydrosonic Electric Toothbrush one of the fastest sonic brushes on the market in the UK.

Combined with an innovative brush head design and patented technology, the Hydrosonic gives an immaculate clean.

It is designed to gently and effectively remove plaque and stain from teeth, gums and the rest of the mouth. The tongue and mucous membranes are thoroughly cleansed, and orthodontic braces are left spotless.

Suitable for all patients, even those with implants, the Hydrosonic Electric toothbrush from Carexo is class in its market for a healthy smile.

For more information please call 01480 828064, email info@carexo.co.uk or visit www.carexo.co.uk.

EndoCare – for stress-free referrals and exceptional patient care

EndoCare is one of the UK’s leading Endodontic referral centres, and prides itself on its caring, patient-centred approach. For the dedicated EndoCare team, the health and satisfaction of the patient is a priority, alongside maintaining excellent relationships with all referring practices.

As part of its mission to provide exceptional levels of care EndoCare will schedule a free appointment for you and the team can check on the treatment progress and the patient’s recovery.

EndoCare works together with all referring practices to ensure an integral part of your team, to deliver outstanding Endodontic referrals. Refer your patients to EndoCare today for effortless, stress-free referrals, and an exceptional level of patient care.

For further information please call EndoCare on 020 7224 0999 or visit www.endocare.co.uk.

Success with the Inman Aligner

The Inman Aligner is a revolutionary appliance that uses innovative technology to straighten anterior teeth.

The technique involves a lingual coil spring and a labial bar putting equal pressure on either side of the teeth, repositioning and straightening them quickly but gently.

For official referrals, Straight Talk Seminars offer both online and hard-on courses for dental professionals to gain certification, and provide the Inman Aligner as part of their treatment options.

Dr Grant Mcuffie, owner of the Inman Aligner and the Inman School in Toshamp, Devon, has now been offering the Inman Aligner for over a year, and is enthusiastic about the benefits to his practice and patients.

“In the Inman Aligner has been a key addition to my treatment range and has reduced the need for referrals to Orthodontics.”

“Success with the Inman Aligner is the key; anything which I think has helped me to refine my techniques in the best way possible.”

“I would certainly recommend the Inman Aligner to other dental professionals, as I’ve had so many success stories, with some patients seeing a noticeable improvement in just two weeks!”

For more information on Straight Talk Seminars visit www.straight-talks.com or phone 0483 366 5477.

Carl Zeiss OPMI Pico “sets high standards”

Carl Zeiss (Carl Zeiss Meditec AG) has recently invested in a Carl Zeiss dental microscope from Nuview.

Carl Zeiss dental microscopes have changed dramatically since the introduction of the dental microscope in the late 1980s (Kim et al. 2004) - so much so that the microscope is now an essential part of any endodontic treatment. This is because the dental microscope brings minute detail into view (Vercels, 2002) and aids greatly in diagnosis, the location, navigation and treatment of canals.

For now, and into the future, the only best equipment will do. Precision engineered to produce crisp, clear images of fantastic quality, Carl Zeiss dental microscopes represent the cutting-edge of advances in magnification and illumination systems. “The OPMI Pico dental microscope sets high standards. What amazes me about the OPMI Pico are the high image quality optics and operating field illumination which makes an excellent surgical microscope. “This purchase has made huge improvements in the quality and ease of use of our equipment. Indeed, the improved image from the microscope has accelerated the rate of magnification improvements I have seen in all aspects of dental general surgery, not just endodontics. It has also been recommended without reservation.”

For more information please call Nuview on 01463 872266, email info@nuview-ltd.com or visit www.nuview.co.uk.
The Waterpik Water Flosser – A development of the best selling Waterpik® Brand. For more information contact Anyone4Tea Ltd on 01428 652131 or visit www.anyone4tea.co.uk. Waterpik® products are widely available in Boots stores.

The Dentist Show 2013: New Chair for the Dental Nursing Conference announced The 2013 edition of the Dentist Show is set to announce the new Chair for the Dental Nursing Conference 2013. Laura Norton, from Laura Norton Consulting, Laura works with dental teams around the country has been chosen for the role. Her career began as dental nurse in 1996 – this has led her to become one of the most successful FDs around and her enthusiasm for helping DCCs is infectious! I’m no doubt that the two days of this year’s conference will be an exciting and educational experience. For more information contact Ray Goodman on 0151 707 0090 or email ray@goodmanlegal.co.uk www.goodmanlegal.co.uk. To learn more about Smile-on, visit www.smile-on.com. To learn more about the AOG, visit www.aog.org.uk.
