Staphylococcus aureus (SA) and anaerobic bacteria - a winning combination for effective long-

Curasept ADS (Anti-Discolouration System) is a powerful ally in the fight against disease-inducing oral bacteria. Side effects typically associated with CHX-based products include staining of the teeth and tongue, altered taste perception and unpleasant tingling sensations. Available in two strengths (0.2 per cent or 0.05 per cent CHX), Curasept ADS mouth rinse avoids these unwanted effects while providing gentle yet efficient treatment for plaque and calculus. The unique formula reduces plaque formation.

Smile-on: delivering quality education

The Curasept ADS family of products also includes a gel formation (0.5 per cent CHX) and toothpaste, which is sodium lauryl sulphate-free. Easy to use and
