The Evidence says it all

Effective daily oral care at home can help maintain a healthy mouth and reduce the onset of oral diseases. Most dental professionals agree that not only do patients have an optimum daily oral care routine and regimen, but also that these adjuncts to their patient's oral care routine at home. It is essential for dental professionals to know which toothpaste is most effective in reducing plaque, so they can maximise the beneficial effects of daily toothbrushing. Collagen Total continues to provide superior plaque control services to help support dental professionals in their clinical practices, and to patients who use toothpaste most often for dental professionals. Collagen Total, first launched in 1957, targets the only toothpaste proven to deliver sustained antioxidant protection for 12 hours. The unique formula of triclosan and fluoride toothpaste, including the ability of triclosan to retain fluoride in the toothpaste and reduce plaque bacteria. The powerful combination of Collagen Total provides superior control for a healthier mouth, and continues to meet the evolving needs of dental professionals.

Sirona Specialists, Sident Dental Systems

New from Plinth Dental are two state-of-the-art dental sets from manufacturers Gnatus. The Synora X4 Full set dental unit comes complete with ergonomically, fully adjustable, chair-integrated foot control, autoclavable delivery unit for syringes and handpieces, a water unit with removable filter, dental light with five LEDs and matching and height-adjustable dental stool. The Star LP dental unit set provides the same functionality as the Synora X4 comes complete with chair, delivery unit, water receptors, dental light and integral X-ray unit. Also new is the Gnatus X5 dental chair, which incorporates a monoblock scaler, with periodontal, punch and water and bicarbonate reservoirs, digital control panel and ergonomic chair. The latest Gnatus equipment is always directly supplied from the manufacturer, and offers next day delivery to the UK and Ireland. A full range of take home x-ray kits is also available, perhaps expanding their work in private dentistry or just to replace old dental equipment with more sophisticated technology, the Gnatus Synora X4 Full set range represents the ultimate in dental design, optimising the brand's reputation for quality, innovation, ergonomics and cost benefits. With a range of ergonomic design, armrests, back rest and footrest the Synora is ideal for patients looking for the new Gnatus X5 dental chair, and continues to meet the evolving needs of dental professionals in a wide range of practice environments.

The third free Septodont Biodentine™ takes place on 20 September at The Dental City. It will be hosted by Dr Avijit Banerjee BDS MSc PhD FDSRCS, who is well known within the industry. Sirona has extended its product range to include its panoramic unit today’s leading panoramic unit. The X-ray hybrid considerably simplifies the practitioner viewing of all areas of the mouth. There is also a swivel arm unit that can be moved from one surgery to another and only requires an electrical connection The complex or panoramic unit comes complete with 6 tips and handpiece.

The UKDS offers a special promotional price of £375.00 + VAT for a limited time only.

The back up "Piezo" is covered under a just few cancelled appointments due to faulty equipment. Further information on this product is available by calling 01793 211 717 or online at www.quolendt.co.uk

The evidence says it all - to date, level evidence, strongest evidence from at least one systematic review, of multiple, well designed, randomised controlled trials/...
