**Man of the moment**

This year Zaki Karian was awarded UK Dentist of the Year in the Dental Awards and voted second in Private Dentist’s ‘Elite Twenty’ dentists in the country. And this week Zaki was officially appointed as Philips Dental Adviser.

Zaki qualified from Guy’s Hospital in 1996 and achieved a Master’s Degree from the Gat Dental Institute in 2001. He also sits on the Board of the British Academy of Cosmetic Dentistry as Vice-President and Scientific Director. He is also an editorial consultant for Dental Implant Summaries and is a member of the Association of Dental Implantology.

He will be acting as a spokesperson for Philips and presenting on behalf of the company as well as authorising and delivering his expert opinion on TV, press, webcasts and live webcasts, on the Company website and in social media. Zaki’s first public appearance after his appointment will be on the BDTA Dental Show in October.

To meet Zaki Karian at the BDTA please visit the Philips stand K16, if you can't attend the show, visit www.somuncare.co.uk or www.philipsprofessionalcare.com.

**UCU Eastman Training in Restorative Dental Practice**

"Fundamentally changed my ability" Dr Alistair Bunting is an associate dentist at Balmoral Lodge in Dorset. He completed his MSc in Restorative Dental Practice at the UCU Eastman Dental Institute in December 2011.

"I decided to undertake the Restorative Dental Practice programme at the Eastman to improve my clinical practice, theory and learn the latest techniques," says Dr Bunting. The support and guidance given at the Eastman gave us everything we needed to gain the confidence to apply these techniques, giving a good broad base of knowledge, both practical and theoretical. The second and third years were meaningfully more in depth. The final year required a dissertation, which fundamentally changed my ability to critically appraise published material. As a result, my patients receive a better service. The quality of my work is of a much higher standard and I have greater confidence in providing predictable, comprehensive treatment plans."

For further information, please contact Victoria Banks, Programme Administrator, on 020 7405 5725, email v_banks@eastman.ac.uk or visit www.eastman.ac.uk/restdnt/pd

**Powerfloss inventor Dr Roy Sennett**

"It gets into areas where normal floss and dental pick can’t!" Powerfloss direct water at high pressure in single spots, giving excellent control to users who find it easy to clean under bridges, braces and other devices they could not reach with conventional flossing.

Powered by a pump that is primed manually, the Powerfloss requires no battery or other power source. It is composed of a removable reservoir component and a nozzle that can be stored inside the reservoir to make it easy to carry or pack.

The Powerfloss is available now with a recommended retail price of £14.99.

For further information call 0844 68 69 150, email info@whitewashlaboratories.com or visit www.whitewashlaboratories.com.

**Advanced Digital Sensor Technology from Schick**

Schick CD3i, from Schick Dental, is one of the world’s leading digital endodontic systems, delivering incredibly high-quality images to meet the diagnostic needs of every clinician.

The modular system is designed so that it can be upgraded to include future improvements in technology, future-proofing your investment and making sure you will be covered in terms of the patient care you can provide. To expand upon the market-leading Schick platform, Schick Dental now offers Schick Wi-Fi, a new communications platform designed to add portable functionality to the highly valuable Schick system. Schick Wi-Fi brings a new level of freedom and flexibility to dental digital radiography. With no cumbersome sensor-to-computer cable to get in the way, Schick Wi-Fi gives clinicians complete 360-degree chair-side mobility, unharmed by trailing wires and other unnecessary complications.

As one of the UK’s leading dental equipment suppliers, Clark Dental is a name that has long been associated with excellence in all its operations.

For more information call 0208 733 144, email info@clarkdental.co.uk or visit www.clarkdental.co.uk
