Dental Sky held a fund raising day on 27th September for Dental’s Uganda project. With the assistance of their customers, the sales team was able to raise money by holding one of their annual Golf Days. Customers were offered a round of golf deals, all proceeds of which went towards Dental’s own brand products; R&B, MLists, Choo and Dentis Varcas, and Carla Suñolive, the General Manager, made a pledge that ten per cent of the promoter’s proceeds would go directly to Dental to assist with their work in the rural villages of Uganda. The atmosphere in the sales office was electric with support coming in from the Dental hygienists and therapists who can support their patients that suffer from xerostomia. Dental Sky customers, the sales team and other dental hygienists Rhiannon Jones. Designed to include elements of interaction and discussion, hygienists and therapists can support their patients that suffer from xerostomia. Dental hygienists Rhiannon Jones. Diplomacy saves the day with Roger-Guliffe Design

Tactful communication and preservation of a persuasive diplomacy from the beginning to the end

Roger-Guliffe, founder of Roger-Guliffe Design, saved the day for Ayap 5yed when he was repirig to launch Pearl Dental in Birmingham.

“lt wasn’t for him the whole thing would have been a complete disaster,” says Ayap. “He was absolutely brilliant to work with, he listened to everything I said to him and helped as far as possible with any ideas I had that I wanted to implement in the practice.”

When disagreements with building contractors threatened to derail the development of the practice, Roger Guliffe stepped in to mediate, quickly finding a resolution that all parties could accept.

“It helped me feel that I had regained complete control of the project, but without Roger’s intervention the builders would probably have left,” says Ayap.

Tight deadlines and shortage of space no problem for The Dental Directory

The fitting and planning of two new surgeries in one dental practice is always a challenge, especially when space of shortage and space deadlines complicate matters. But The Dental Directory is more than prepared to cope, says Shirley Perry of Daxley Dental Clinic in Oxford. The practice had two surgeries fitted. The first was a small former staff room, kitchen area and toilet converted into a surgery/dental education suite to allow for increased accessibility and possible future expansion. The second was an existing surgery that needed refurbishment and new equipment. "The planning and fitting of the surgeries was done by Martin Gregory at The Dental Directory, and he was absolutely brilliant,” says Shirley. “Usually you have a query about anything and you ring him and he does everything and the service we have had from him has been amazing.”

With a foundation dentist due to join the practice there were tight deadlines to meet, something that The Dental Directory achieved without a problem.

For more information contact The Dental Directory Equipment Department on 0300 185 185, or visit www.dental-directory.co.uk

Grahame Gardner enhances Urbania range

Grahame Gardner have enhanced their phenomema range with three Tapered Groove forms. The range has been especially designed to fit into the fine anatomy of the molar and premolar crowns. The new form has been capitalised on the antimicrobial properties of Curasept ADS®. The Curasept ADS® (Anti Discolouration System) mouthwash. The Curasept ADS® range of complementary products includes gel and SLS-free toothpaste to take full advantage of the efficacy of CHX.
