BKH provides a comprehensive range of services including financial assistance, and develop opportunities for business growth. For more information, email practice as well as the installation of the new equipment. It was all immensely our builder and thrashed through many problems without me having to experience to help us with our design process. They also took a huge load off let me down. Clark Dental masterminded the installation of equipment in they had the skills and expertise to 'get things done', and they certainly didn't Dr Helen Harrison of Granta Dental, Cambridge, says: "For my new practice or visit info@clarkdental.co.uk www.ceramicsystems.co.uk or visit contact Ian Pinner on 01932 582905

For information on the full range of Kemdent disinfectants, ChairSafe, rapidly reducing its action and destroying them. The Alcohol Free disinfectant used with ChairSafe Economy wipes adsorbs and penetrates into the cell wall of bacteria, fungi and the envelope of viruses. It attacks the phospholipid membrane, altering its structure-causing denaturation and finally kills the cell. These wipes have a shelf life of 24 months and are suitable for use on all hard surfaces, including instruments and equipment. It is recommended that you store the wipes out of direct sunlight to ensure that they remain effective for use. This product is also available in the standard ChairSafe range, which can be stored at room temperature. It is important to note that ChairSafe Alcohol-Free wipes do not contain any alcohol, which makes them suitable for use on alcohol-sensitive surfaces. FOR MORE INFORMATION PLEASE CONTACT CENTRE FOR DENTISTRY TODAY.

Asbestos risk assessments: an obligation for businesses
Under the Control of Asbestos Regulations 2012, businesses owe clear obligations for dealing with the material, which is linked to several types of cancer and other illnesses. Anybody holding an obligation to repair or maintain a non-domestic property, or otherwise has a duty to ensure an area is cleansed of asbestos is likely to be present.

This applies to all properties, from an assessment reporting that a building was constructed after the asbestos ban and therefore the material is not present must now deal with any asbestos that is present. Further actions must be taken to determine the risk levels posed. Identify which parts of the property are affected and if the measure to be taken. This should determine the condition of the asbestos, ensure it is properly maintained or safely removed, and make it's location known to any person likely to disturb the material.

The emergency services should also be informed of its location.

Goodman Legal, Lawyers for Dentists, has many years’ experience in providing legal services to dentists setting up their own practices. Ray Goodman is the Chairman of NASDAL, lawyer group and a member of ASFD.
