Looking for a new challenge? At Centre for Dentistry we believe we offer the most exciting opportunity for a dentist available today.

Working in partnership with Samayovitch’s we’ve launched a completely new business model where you can own your very own practice in the heart of a busy Samayovitch’s supermarket. With hundreds of thousands of potential patients passing your practice on a daily basis you will be in the best possible place to attract new patients and grow your dental practice in your community.

Here at Centre for Dentistry we will work closely with you, managing the brand and providing operational infrastructure and support, so you can focus on what you do best. You may already have your own practice, or you may wish to open a practice of your own for the first time. We will be on your side from day one as partners in this new community.

For more information, visit www.centrefordentistry.com or email partners@centrefordentistry.com

Dr Bhogal, Specialist Orthodontist at the London Smile Clinic, “so we can be amongst the first in the world to be using these systems. They took a tour of the facilities, met the technicians and were the first to see the tech laboratory in Germany. The elite group were flown to Bad Essen on 15th December to 2013 at NEC Birmingham. The London Smile Clinic. Goes Incoffin™ in live demonstrations

The London Smile Clinic goes Incoffin™ in live demonstrations. Exclusive Invite-Only Event

Dr Prat Bhogal was one of a select group of orthodontists invited by Incoffin™ to an exclusive invite-only event to the company’s technology lab in Germany. The elite group were flown to Bad Essen on 15th November 2012. They took a tour of the facilities, met the technicians and were the first to see the company’s very latest developments set up directly to the patient.

"Together with learning the latest cutting edge techniques, there are huge benefits that we can pass on to our patients,” says Dr Bhogal, Specialist Orthodontist at the London Smile Clinic, “so we can be amongst the first in the world to be using these systems.

Dr Paulo Malo to speak at The Dentistry Show 2013

The Dentistry Show 2013 promises to be a highlight of the year: with over 300 exhibitors and more than 40 top quality speakers presenting lectures, hands-on workshops and live demonstrations with up to 40 hours of free CPD available.

Dr Paulo Malo will be giving a lecture about the “All-on-4™” technique as part of the “Aesthetic Dentist” conference in 2013. The technique isn’t subject to the same limitations as is bone grafting for traditional implants, and the All-on-4™ is consequently more cost-effective and reduces the inconvenience associated with the powdering stage.  Used in combination, this varied two-day programme takes place early each year and offers 12 hours of verifiable CPD. Delegates will attend three, treatment-planning seminars, observe live surgery, and learn the experience of placing implants in mandibles.

Another speaker is Dr Andrew Roberts, from the University of Birmingham, who will be discussing the merits of the All-on-4™ technique.

"Together with learning the latest cutting edge techniques, there are huge benefits that we can pass on to our patients,” says Dr Bhogal, Specialist Orthodontist at the London Smile Clinic, “so we can be amongst the first in the world to be using these systems.
