Compatible with iPhones and iPads, the app can be downloaded from the app Corsodyl Gum Care Guidance Pack which can be requested for dental practices.

Developed by the British Society of Periodontology, the BPE allows dental professionals to consistently & accurately assess their patients’ gum health. The BPE guidance at your fingertips - new gum diagnostics. I can add finesse to a greater degree, which was not achievable with panoramic X-rays. Both the University and the LDTA pursued this venture with enthusiasm. However, delays in the anticipated start date for the Medical School and the requirement that the project alone has left the University with no choice but to delay the Dental School project. The Carl Zeiss OMPI Pico microscope – “I can add finesse to a greater degree, which was not achievable with panoramic X-rays.”

To back up the campaign, Align Technology is developing a number of promotions with the IDMB to educate the public and drive potential patients to enquire about tooth straightening.

Invisalign providers are also being encouraged to hold open days in capital in the interest being generated during National Smile Month and to support this initiative, Align is offering them 50% discount on their lab fees between 15 May and 15 June.

The company is also branding the famous National Smile Month smile on a stick’ providing participating practices with something to promote Smile Month events.

For more information visit www.nationaledmouth.org or www.mislaynui.co.uk

The Carl Zeiss OMPI Pico microscope – “I remain as impressed now as I was when I purchased it. I’ve been using the OMPI Pico microscope for over 18 months now and I remain as impressed now as I was when purchased.”
