Phelps Shines a light on EU Compliant Light Activated Tooth Whitening
To highlight the positive opportunities and economic presents for dental professionals following EU regulation changes Philips will be running its real
time whitening workshops at the Dentistry Show. The workshops will coincide with the UK launch of Philips new light activated tooth whitening system which
introduces a new six per cent lightening solution formulated specifically to be used with its pioneering Zoom Whitelight LED lamp. The new whitening gel
contains a per cent H2O2 formulation which is combined with a pH booster and key like Zoom products, also contains Ammonium Enzyme and Peroxide
which reduces sensitivity, prevents enamel and helps improve the lustre of the teeth. The gel is then activated by Philips' Zoom WhiteSpeed lamp. A new
