Germinal Health mobile app is designed to be a quick reference tool for the BPE.

Strength and beauty

Filihk Bulk Fill flowable restorative offers a low shrinkage stress as it can be placed into the prepared cavity and cured in one increment of 4mm.

For all of your dental supplies needs, big or small, you can Trust The Dental Directory.

Industry News

whatever your needs, the Dental Directory is ready to help. With our competitive prices, it is hardly surprising that we have been independently verified as the best priced dental dealer in 2012 and 2013.

Contact 3M ESPE today to find out how Filtek Bulk Fill flowable restorative can provide nearly twice the strength and beauty.

Anterior crowns such as porcelain-fused-to-metal (PFM), laser-fused-ceramic-metal (LFCM) and mixed restorations are inevitable for all composite implants. These gaps can be renovated dependent on fabrication precision. However, they are never completely bactera-proof. Already 16 years ago, the Clinic for Prosthetics and Maxillofacial Surgery of the Heinrich-Heine-University, Düsseldorf, Germany under the direction of Prof. Dr. Dr. Fiedemann, has started to find a solution to this problem.

GapSeal® (Phizer & Wellman) is based on a special silicon matrix ingredient composition which prevents infiltration of bacteria. It is used directly after fitting of the implant with the first fiiting of the locking screw. The implant is then totally protected against infection by bacteria, viruses and fungi from the very begining. GapSeal® is most easy in application as the material is offered in small portion sizes, together with a special applicator. A short video can be found at www.3M.com or on YouTube.

Fig GapSeal® seals implant gaps and hollow spaces.

The Dental Directory for all dental supplies, big and small

When Albany Dental Care in Edinburgh refurbished their practice, they chose The Dental Directory as their supplier of choice for large equipment. Today, they still call on the UK’s largest independent dental dealer for the rest of their dental supplies.
