For more information, contact The Dental Directory on 0800 585 586 or visit www.dental-directory.co.uk

The Dental Directory offers a vast range of quality solutions for all your orthodontic needs. Helen Williams, Head Dental Nurse at Whitetree Dental Centre in Bristol, said: “We have been working with The Dental Directory now for several years, having sourced all our orthodontic products from the company in the last two to three,” she says.

“We were looking to streamline our purchases, and with its extensive product range, the Dental Directory made it possible. We find that all of their orthodontic products offer great value for money.”

“Very usually a lot of interaction with our sales representatives, and they have always been really useful, providing information on upcoming deals and new products. As such, I would recommend The Dental Directory to other practices.”

From aesthetic brushes to IPR ortho-strips and aligner patient kits, The Dental Directory offers a vast range of quality solutions for all your orthodontic needs. Discover the latest products and materials at fantastic prices today.

Finding your way around a GDS contract

The team at Goodman Grant Solicitors have 75 years experience in dealing with the regulatory bodies that govern the dental industry. As such they are perfectly situated to provide advice and guidance in all areas of dental contracts.

GDS contracts run to several hundred clauses over approximately 150 pages and provide for any number of conditions, many of which may or may not be applicable in individual circumstances.

Specifically designed to accommodate dental partners, they cover the many scenarios that can result from any number of contract terminations, including the breakdown of a partnership. The risk of non-compliance by not understanding your contract terms can be significant.

Protect Your Patients with BiB-Eez

Bib-Eze™ dental bib holders from DUX Dental have been specifically designed to optimise hygiene in the dental surgery.

Researcher at Tuscaloosa University of Dental Medicine in the USA found that 40% of bib clips tested post-disinfection retained one or more aerobics bacteria, and 70% retained one or more anaerobic bacteria.

DUX Dental designed disposable BiB-Eez bib holders to eliminate the problem, and preserve the safety of both you and your patients.

Made from lightweight, absorbent fibres, BiB-Eez guarantees patient comfort, while also offering any handling and application for a smooth and efficient workflow. Just peel, stretch to fit and apply the BiB-Eez to any bib, and your patients are protected from any potential contamination.

For a convenient and cost-effective way of keeping your patients safe, get your free trial BiB-Eez disposable bib holders from DUX Dental today.

For more information or for your free trial pack please call 0800 2414021 or email info@dux-dental.com

The concise dental range to make you smile

Graham Gardner Ltd has been producing healthcare garments for over 100 years covering an extensive area of professional types. To make it simple for Dental Surgeries to make the best selection to meet their requirements, Graham Gardner has now produced a more concise collection, highlighting key garments for Dental Staff.

This comprises scrubs from Smitten, Urbane and Landau, plus stylish workwear from the Vitality range, and complementary footwear from Toftlock.

Working with Dental surgeries for decades has given Graham Gardner the experience they need to create this collection that champion the perfect garments for all practice staff. With a huge range of colours available, practice managers should readily be able to pick the best combination to reflect the practice identity.

Call Graham Gardner direct on 0116 255 6326.

Find good dentistry

The Patient Experience is really what matters, and what sets you apart from the rest. A well-designed and modern practice will work to bring together a truly exceptional care team to the patient experience.

A treatment room that does not appear to house their optimum comfort and safety will not make the best first impression. At Tavom UK we offer a wide range of products and services, from quality cabinets to high-quality chairs, that will provide your patients with the confidence they need.

To find out how to update your practice with contemporary dental cabinetry, go to www.tavom.co.uk, call 01793 775256 or email: info@tavom.co.uk

G-ænial Universal Flo and G-ænial Flo, to give the next generation of flowables

GC introduces the next generation of flowables

GC Europe, the leader in dental materials technology is pleased to announce the launch of two new flowable materials, G-ænial Universal Flo and G-ænial Flo, to give patients a greater range of choice, comfort, aesthetics, functional and durable restorations.

Both flowable materials benefit from a composition that features a unique filler technology. Unlike other flowable composites the GC materials have a higher filler load and a homogenous dispersion of the particles in the resin matrix. G-ænial Universal Flo is radiopaque and features a high viscosity, making it ideal for placement in class IV restorations. Essentially, it looks like a flowable paste, but behaves like a restorative. Its indications are for direct restorations, minimum intervention cavities and fissure sealing.

These restoratives are dispensed through an ergonomically designed syringe that enables smooth delivery of the material, with a tapered tip that means no paste can stick to it. The syringe provides a comfortable hold and the arched shape of the flange fits the hand ergonomically. The design also prevents material waste because minimal residual paste remains in the syringe after use.

For further information please contact GC-UK on 01088 218 999.
