We have multi-skilled healthcare professionals in this country who provide dental health care to the population. Dedicated, committed and highly skilled dental teams are focused on offering high quality care for patients within and without the NHS. However, sometimes things can go a little awry and their professional integrity is called into question.

If this happens the overriding concern is always for patient safety, but professionals also need support and sensitively to ensure they are treated fairly by the organisation employing them. After all, for the majority, an episode of sub-standard performance will not spell the end of a career.

With the right support and management of the situation most professionals will continue with their work and the treatment of patients. Quick and effective intervention regarding performance concerns should result in the desired outcomes – which must always include support for the practitioner. Importantly, all concerns must be treated in a fair and consistent manner.

Consider these questions:

• What constitutes a performance concern?
• Who could/should raise concerns?
• Do those who could or should raise concerns know how to do so?
• Who should manage a performance concern once it has been raised?
• Do you know the answers to these questions?

A ‘poor performance’ reporting system should be simple enough to follow so that everyone knows who to speak to and what will be done, whatever the concern involves. Sometimes it is difficult to voice concerns especially if it relates to your boss, however, it is important to remember your reasons for raising a concern at this point. Your in-house process and procedure will have identified individuals who will be able to help at this point.

Performance concerns may relate to:

• Standard of work – for example frequent mistakes or not following a task through
• An inability to handle a reasonable volume of work to a
Champions® Implant System

(R)Evolution in Implantology and Prosthodontics: MIMI® Method (Minimally Invasive Method of Implantation)

Dr. Armin Nedjat said, "I have developed the Champions® implant system, a reliable and innovative implant system that can be readily used in the day-to-day work of dental offices. More than 2,000 dental offices decide on Champions®, and they performed more than 5,000 implantations last year. Do you want to be one of these Champions, too?"

Advantages
- Standard: MIMI® – Wide-Rule for situation and dentists
- Patient-friendly
- More efficient procedure for the dentist
- Champions® implants: a wide range of invasive implants and prosthodontics, which can be used for many indications
- High-quality at affordable prices
- Excellent primary stability
- Central multiple loading
- Excellent prosthetic realization
- Innovative solution and successful treatment
- Made in Germany with proven production and highest-quality materials
- Free MIMI® marketing
- Free Training for all Champions® customers
- Champions®-service – one of the best (study on demand)

One-Piece Implants
Champions® Square-Shaped Implants Ø 3.0 · 3.5 · 4.0 · 4.5 · 5.5 Thread lengths: 6 · 8 · 10 · 12 · 14 · 24 mm
* Made in Germany
* Suitable for all indications

Courses about the minimally invasive implantation method (MIMI®) and the Champions® implant system

Continuing education in Mallorca

The course starts on Wednesday at 2:00 p.m. and ends on Saturday afternoon.

June 13 – June 16, 2012

Course content
- Theory: Presentation of the Champions® implant system and the MIMI® method. Practice live surgeries with one-piece and two-piece Champions® implants.
- The course includes: Transfer to a double-room, breakfast included, transfers to the dental office, day rate, lunch, coffee breaks, 2 dinners, course script, ID Certificate, incl. for accompanying persons.

Course fee € 2 200 (VAT excluded)

Course participants: minimum 3, maximum 10

Please arrange your flight schedule. For transfers, please give us your flight arrival time.

The course will be presented in a friendly and relaxed atmosphere, and dentists will be able to incorporate Implantology as an additional treatment in their dental office.

The courses will be taught by Dr. Armin Nedjat, an experienced Dental Implantology specialist. He has planned and restored more than 20 000 implants.
