AACD lineup revealed

Garber, Salama among the list of speakers at upcoming meeting

Courses and educators for AACD 2013 have now been revealed, including Drs. David Garber, Maurice Salama and many others among the lineup.

AACD 2013, the American Academy of Cosmetic Dentistry’s (AACD) annual scientific session, is slated for April 24–27 in Seattle. Attendees who register before April 5 will receive $50 off their tuition. To register, visit www.aacdconference.com

What sets the AACD’s meeting apart from other dental meetings is the live learning experience, AACD President Ron Goodlin said.

“Our courses are geared toward all members of the dental team — from dentists to lab techs, hygienists, team members, office staff and more,” Goodlin said. “AACD 2013 is a place where dentists and teams can evolve together. They’ll return to their practices the following Monday with a new set of skills, new techniques and new energy.”

To see who’s on this year’s lineup, check out the AACD’s digital version of the preliminary conference guide, available at bluedoor.com/publication/?i=85043

The digital conference guide lists courses, speaker bios, exhibitor lists, schedules of events and information about social events, including receptions and fund-raising activities for the AACD Charitable Foundation.

The conference kicks off at 2:30 p.m. April 24 with a “power session” featuring Drs. Garber and Salama. Following the power session is the AACD’s welcome reception, which will be held at the Experience Music Project, located at the base of Seattle’s famous Space Needle.

Attendees are encouraged to register for the conference as soon as possible and to view the courses in the preliminary guide prior to course selection opening. For more information or to register, visit www.aacdconference.com

PDC: a great chance to explore Vancouver

Trade show is March 7–9 in the heart of Canada’s top tourist attractions

Experience the true flavor of the West Coast and earn C.E. credits at the same time.

The Pacific Dental Conference has an expert lineup of local, North American and international speakers. With more than 350 presenters, 150 open sessions and 36 hands-on courses covering a variety of topics, there is something for every member of your dental team.

Explore the largest two-day dental trade show in Canada (www.pdcconf.com) and have the year’s first opportunity to see the newest equipment.

Organizers invite attendees into the exhibit hall to see innovative new techniques demonstrated on the live dentistry stage while also examining products and services from more than 300 exhibiting companies.

Representatives from every company will be ready to engage attendees in discussions on creating practice solutions.

After the conference, you can take a day to relax and revitalize by exploring some of the great tourist attractions in Vancouver. The ocean is steps from the Vancouver Convention Centre, and pristine snow-capped mountains offer choice spring-like skiing conditions.

Alongside this polishing process, a prototype apparatus has been developed at the Fraunhofer ILT for automated laser polishing of implants. For the first time, scientists have developed a glove box with a six-axis articulated robot, which can grasp the implants and process a complete series of them on its own. This automated machine engineering makes the entire process less expensive, more flexible and appropriate for industrial series production.
