Stay on top of new techniques, products with implants

Thanks to rapidly advancing technology, the field of implant dentistry is always changing and evolving. Clinicians must be vigilant in their efforts to keep up with new techniques, new products and new technology that could affect treatment planning.

And that’s what makes the publication you are holding right now so valuable.

For this issue of implants, we’ve assembled a collection of articles from a variety of respected names and companies in dentistry. These expert clinicians are sharing their first-hand knowledge and expertise with you. In this issue, you can read about implant site preservation, and you can also learn about blade implants. We also have news on implant events and technology.

But there’s more.

Every issue of implants magazine also contains a C.E. component. By reading the set of three articles (beginning on Page 6) on “Implant site preservation using a novel post and crown” by Dr. Kalman, “Clinical and diagnostic advantages of PreXion 3-D imaging system” (page 10) by Dr. McEowen and “Blade implants in the treatment of thin ridges” (page 15) by Dr. Dal Carlo, and then taking short online quizzes on each article at www.DTStudyClub.com, you will gain one ADA CERP-certified C.E. credit.

Keep in mind that because implants is a quarterly magazine, you can actually chisel at least four C.E. credits per year out of your already busy life without any lost revenue and time away from your practice.

To learn more about how you can take advantage of this C.E. opportunity, visit www.DTStudyClub.com. Annual subscribers to the magazine ($50) need only register at the Dental Tribune Study Club website to access these C.E. materials free of charge. Non-subscribers may take the C.E. quiz after registering on the DT Study Club website and paying a nominal fee.

Finally, if you are interested in becoming a published author, we are always looking for experienced clinicians to write C.E. articles and offer their expertise to our readers. Contact Managing Editor Sierra Rendon at s.rendon@dental-tribune.com for more information on submitting an article.

I hope you enjoy this issue and that you get the most out of it.

Sincerely,

Torsten Oemus
