Barry Lee Musikant, DMD

Case Report
24 Efficient and ergonomic apical resection using the Kaiserwerth algorithm
Prof. Marcel Wainwright, DMD

Interview
30 Redefining endodontic education
Fred Michmershuizen, Managing Editor

Meetings
34 Microscopic dentistry is focus of AMED event

Industry
36 The Jordco System

About the Publisher
38 Wykle Research and Nordiska Dental offer Calasept Endo line
40 Stropko Irrigator removes debris, making many procedures easier

On the Cover
The image is of a TrueTooth™ training replica. Designed by L. Stephen Buchanan, DDS, FICD, FACD, and re-created by a 3-D printer, these are authentic replicas of the internal and external anatomy of CT-scanned extracted teeth, with bleach-dissolvable material in the root canal passageways. TrueTooth training replicas are available exclusively from www.DELendo.com and are patent pending.
