Stay up on the latest information with *roots*

Thanks to ever expanding technology, dental professionals are able to treat patients in new and innovative ways. But staying on the cutting edge can be a challenge. That’s what makes the publication you are holding right now so valuable.

For this issue of *roots*, we’ve assembled a collection of articles from some of the most respected names in endodontics. These expert clinicians are sharing their knowledge and expertise with you.

Within this issue you can read reports on using hand files to their full capabilities by Dr. Rich Mounce, and the real state of endodontic instrumentation by Dr. Barry Lee Musikant. In addition, Managing Editor Fred Michmershuizen has written a report on the many offerings for endodontists that were available at the recent ADA meeting in San Francisco.

But there’s even more.

Every issue of *roots* magazine also contains a C.E. component. By reading the article on bioceramic technology by Dr. Ken Koch, then taking a short online quiz about this article at www.DTStudyClub.com, you will gain one ADA CERP-certified C.E. credit. Keep in mind that since *roots* is a quarterly magazine, you can actually chisel four C.E. credits per year out of your already busy life without the lost revenue and time away from your practice.

To learn more about how you can take advantage of this C.E. opportunity, visit www.DTStudyClub.com. Subscribers to the magazine can take this quiz for free and will be emailed an access code after the magazine’s release. If you do not receive the code, please write to support@dtstudyclub.com. Non-subscribers may take the quiz for $20. You can access the quiz by using the QR code on page 6.

I know that taking time away from your practice to pursue C.E. credits is costly in terms of lost revenue and time, and that is another reason *roots* is such a valuable publication.

I hope you enjoy this issue and that you get the most out of it.

Sincerely,

Fred Weinstein, DMD, MRCD(C), FICD, FACD
Editor in Chief
