Established 15 years ago, the Dental Tribune (DT) Study Club is an education-based online community that inspires new possibilities while creating higher expectations in online learning. The DT Study Club provides a unique opportunity for dental professionals to connect with peers and learn in a social and amiable environment, thereby facilitating interaction beyond country borders to create a global dental village.

Unlike other online education platforms, DT Study Club is a recognized continuing education provider by the American Dental Association Continuing Education Recognition Program (ADA CERP) and offers dental professionals across the globe a comfortable opportunity to earn continuing education (CE) credits.

DT Study Club webinars are a cost-effective alternative to face-to-face lectures, workshops, exhibitions or congress, with no travel expenses for speakers or participants. It offers an online community of live, interactive, and archived webinars as well as product reviews with recordings of opinion leaders’ first impressions.

Each webinar attracts up to 1,500 live participants at a cost of less than €10 per qualified lead. Archived webinars, which can be accessed 24/7, generate further leads and can be used for training purposes.

With more than 400,000 members worldwide, DT Study Club has access to the largest online dental community. Webinars are available in English and local languages of various regions, including Asia Pacific, Brazil, Bulgaria, Canada, China, the Czech Republic and Slovakia, Denmark, Finland, France, Germany, Greece, Hungary, India, Iran, Israel, Italy, Japan, Latin America, the Middle East, the Netherlands, Pakistan, Poland, Romania, Russia, Serbia, Sweden, Turkey and the UK & Ireland.

The number of members is constantly growing and the latest figures are available on request.

Benefits of including webinars in your advertising and lead generation strategy

– cost-effective alternative to face-to-face workshops, exhibitions or congresses

– no travel expenses for speakers or participants

– live lectures are broadcast in real time via the Internet to geographically dispersed viewers

– archived webinars are accessible 24/7 from anywhere in the world and can be used for staff training, among a myriad of uses

– excellent tool for market research (in general, the product manager attends the live webinar)

– promotes both direct sales and accurate use of products

– higher degree of interactivity in comparison with face-to-face sessions (participants can post questions during the session on a virtual whiteboard)

– additional value-added features are limited only by your imagination

Rates depend on the country, region and number of local language versions. Please contact media sales for more information.

* Simultaneous interpretation and subtitles for various languages are available for live and archived webinars on request.
